rename the current position of chief security officer the sergeant at arms. Specifically, **section 1** authorizes the executive committee of the legislative council (executive committee) to appoint an administrator of legislative safety to serve as the primary point of contact for members of the general assembly, employees of the general assembly, and other individuals specified by the executive committee (covered individuals) on all matters relating to their personal safety and security and to coordinate security and protection for covered individuals. The administrator of legislative safety performs their duties under the direction and supervision of the executive committee and, with approval of the executive committee, may appoint additional personnel as necessary to perform the functions assigned to the administrator of legislative safety. The administrator of legislative safety is the primary recipient of complaints relating to criminal activity against or security threats or risks to a covered individual. In fulfilling their duties, the administrator of legislative safety shall coordinate with the Colorado state patrol and may coordinate with local law enforcement agencies and with the sergeants at arms of each house of the general assembly.

Current law authorizes each house of the general assembly to appoint a chief security officer. **Sections 2 and 3** change the title of the chief security officer to the sergeants at arms. **Section 2** specifies that each house that appoints sergeants at arms may consult with the administrator of legislative safety in connection with the supervision of the sergeants at arms.

Section 4 specifies that the administrator of legislative safety is a peace officer whose authority includes enforcing all laws of the state and who may be certified by the P.O.S.T. board.

Current law requires the state patrol to provide protection for members of the general assembly when they are present in the capitol complex and, under certain circumstances, when they attend functions held elsewhere in the state. **Section 6** includes other covered individuals in the state patrol's protection when they are present in the capitol complex. In addition, **section 6** clarifies that the state patrol's jurisdiction includes law enforcement services for the capitol complex and requires the state patrol to coordinate its law enforcement efforts in the capitol complex with the administrator of legislative safety.

Current law grants the city and county of Denver jurisdiction to enforce the laws of the state for the security of people and property in the capitol complex. **Section 7** clarifies that this authority is in addition to the jurisdiction of the state patrol to enforce the laws of the state in the capitol complex.

State patrol's jurisdiction of governor's mansion. Section 5 specifies that the Colorado state patrol's jurisdiction includes law enforcement services for the governor's mansion.

Protections for certain public officials. Sections 8 through 10

address various other security concerns for certain elected officials. All candidate committees, political committees, small donor committees, and political parties are currently required to register with the secretary of state (secretary) or municipal clerk, as applicable, before accepting or making any campaign contributions. Registration requires the submission of a statement listing, among other items, a street address for the principal place of operations of the committee or party. **Section 8** specifies that the address may be a street or mailing address.

Currently, the secretary is required to make all candidate disclosure statements filed with the secretary available to the public on the secretary's website. **Section 9** repeals this requirement.

Current law requires specified elected and appointed state officials to file a financial disclosure statement with the secretary that includes, among other items, the legal description of any interest in real property with a market value that exceeds \$5,000. **Section 10** eliminates the requirement to include a legal description of the property. **Section 10** also requires the secretary to make financial disclosure statements available to any person upon request rather than on the secretary's website.

Judicial security. Section 11 requires a sheriff who provides security for a court to use the recommended standards developed by the judicial security task force created in the bill to implement security measures for court facilities. The county sheriff shall verify that an individual who enters a courthouse with a firearm is not prohibited from carrying a firearm in a courthouse pursuant to current law and maintain a log including specified information regarding each individual who enters a courthouse with a firearm.

Sections 12 through 14 modify the assessment and collection of the court security surcharge and **sections 15 and 16** address other judicial security concerns. Currently, courts assess and collect a \$5 court security surcharge on certain court filing fees (\$5 surcharge). The money from the \$5 surcharge is deposited in the court security cash fund, which is distributed to counties through grants made by the court security cash fund commission for the counties to use for purposes related to security of facilities containing a state court or probation office. **Section 12** ends the assessment and collection of the \$5 surcharge on June 30, 2027, and transfers the balance of the court security cash fund on August 31, 2027, to the court security authority (authority), which is created in the bill. **Section 13** repeals the \$5 surcharge, the court security cash fund, and court security cash fund commission on September 1, 2027.

Section 14 creates the court security authority as a special purpose authority. Beginning on July 1, 2027, the authority imposes a \$10 court security surcharge (\$10 surcharge) on the same court filings on which the \$5 surcharge was assessed and collected. The courts assess and collect the \$10 surcharge and transmit the surcharge money to the authority and the authority is required to use the money from the surcharge to provide

grants to counties for the same purposes for which grants from the \$5 surcharge were made. The authority may also use money from the \$10 surcharge to provide grants to the state court administrator's office for system-wide security needs. The bill creates the court security authority board, which initially consists of the same members that comprised the court security cash fund commission and requires the board to award the grants based on specified criteria.

Section 15 creates a courthouse security task force in the judicial department to develop recommended standards for security at courthouses and other court and probation facilities.

Current law specifies that an individual commits retaliation against a judge if the individual makes a credible threat or commits an act of harassment, or an act of harm or injury upon a person or property as retaliation or retribution against a judge. **Section 16** includes judicial employees in this law.

Personal information on the internet. Current law allows specified individuals, defined as "protected persons", to request that state or local government officials remove their personal information from records that are available on the internet. Under existing law, it is unlawful to post a protected person's personal information on the internet in certain circumstances. In addition to other modifications to this law, **section 17** adds judicial employees, elected officials, and staff of elected officials to the definition of "protected person". **Section 17** also establishes civil remedies for a protected person recoverable from a person who is not a state or local government official and who has published the protected person's personal information if the person does not remove the personal information upon request.

Conforming amendments. Sections 18 through 24 make conforming amendments in connection with the repeal of the \$5 surcharge that is transmitted to the court security cash fund and the implementation of the \$10 surcharge that is transmitted to the authority. **Sections 26, 27, 29, and 30** make conforming amendments to change references to the "state capitol buildings group" to "state capitol buildings complex". **Section 25** makes a conforming amendment to change a reference to the "chief security officer" to the "sergeant at arms". **Section 28** adds the court security authority to the list of authorities.
