Section 4. Section 15-1-121, MCA, is amended to read:

"15-1-121. Entitlement share payment -- purpose -- appropriation. (1) As described in 15-1-120(3), each local government is entitled to an annual amount that is the replacement for revenue received by local governments for diminishment of property tax base and various earmarked fees and other revenue that, pursuant to Chapter 574, Laws of 2001, amended by section 4, Chapter 13, Special Laws of August 2002, and later enactments, were consolidated to provide aggregation of certain reimbursements, fees, tax collections, and other revenue in the state treasury with each local government's share. The reimbursement under this section is provided by direct payment from the state treasury rather than the ad hoc system that offset certain state payments with local government collections due the state and reimbursements made by percentage splits, with a local government remitting a portion of collections to the state, retaining a portion, and in some cases sending a portion to other local governments.

(2) The sources of dedicated revenue that were relinquished by local governments in exchange for an entitlement share of the state general fund were:

(a) personal property tax reimbursements pursuant to sections 167(1) through (5) and 169(6), Chapter 584, Laws of 1999;

(b) vehicle, boat, and aircraft taxes and fees pursuant to:

(i) Title 23, chapter 2, part 5;

(ii) Title 23, chapter 2, part 6;

(iv) 61-3-317;

(v) 61-3-321;

(vi) Title 61, chapter 3, part 5, except for 61-3-509(3), as that subsection read prior to the amendment of 61-3-509 in 2001;

(vii) Title 61, chapter 3, part 7;

(viii) 5% of the fees collected under 61-10-122;

(ix) 61-10-130;

(x) 61-10-148; and

(xi) 67-3-205;

(c) gaming revenue pursuant to Title 23, chapter 5, part 6, except for the permit fee in 23-5-612(2)(a);

(d) district court fees pursuant to:

(i) 25-1-201, except those fees in 25-1-201(1)(d), (1)(g), and (1)(j);

(ii) 25-1-202;

(iii) 25-9-506; and

(iv) 27-9-103;

(e) certificate of title fees for manufactured homes pursuant to 15-1-116;

(f) financial institution taxes collected pursuant to the former provisions of Title 15, chapter 31, part 7;

(g) all beer, liquor, and wine taxes pursuant to:

(i) 16-1-404;

(ii) 16-1-406; and

(iii) 16-1-411;

(i) title and registration fees pursuant to 61-3-203;

(j) veterans' cemetery license plate fees pursuant to 61-3-459;

(n) state aeronautics fees pursuant to 67-3-101; and

(o) department of natural resources and conservation payments in lieu of taxes pursuant to former Title 77, chapter 1, part 5.

(3) Except as provided in subsection (7)(b), the total amount received by each local government in the prior fiscal year as an entitlement share payment under this section is the base component for the subsequent fiscal year distribution, and in each subsequent year the prior year entitlement share payment, including any reimbursement payments received pursuant to subsection (7), is each local government's base component. The sum of all local governments' base components is the fiscal year entitlement share pool.

(4) (a) Except as provided in subsections (4)(b)(iv) and (7)(b), the base entitlement share pool must be increased annually by an entitlement share growth rate as provided for in this subsection (4). The amount

determined through the application of annual growth rates is the entitlement share pool for each fiscal year.

(b) By October 1 of each year, the department shall calculate the growth rate of the entitlement share pool for the next fiscal year in the following manner:

(i) The department shall calculate the entitlement share growth rate based on the ratio of two factors of state revenue sources for the first, second, and third most recently completed fiscal years as recorded on the statewide ~~budgeting and~~ accounting, budgeting, and human resource system. The first factor is the sum of the revenue for the first and second previous completed fiscal years received from the sources referred to in subsections (2)(b), (2)(c), and (2)(g) divided by the sum of the revenue for the second and third previous completed fiscal years received from the same sources multiplied by 0.75. The second factor is the sum of the revenue for the first and second previous completed fiscal years received from individual income tax as provided in Title 15, chapter 30, and corporate income tax as provided in Title 15, chapter 31, divided by the sum of the revenue for the second and third previous completed fiscal years received from the same sources multiplied by 0.25.

(ii) Except as provided in subsections (4)(b)(iii) and (4)(b)(iv), the entitlement share growth rate is the lesser of:

(A) the sum of the first factor plus the second factor; or

(B) 1.03 for counties, 1.0325 for consolidated local governments, and 1.035 for cities and towns.

(iii) In no instance can the entitlement growth factor be less than 1. Subject to subsection (4)(b)(iv), the entitlement share growth rate is applied to the most recently completed fiscal year entitlement payment to determine the subsequent fiscal year payment.

(iv) The entitlement share growth rate, as described in this subsection (4), is:

(A) for fiscal year 2018, 1.005;

(B) for fiscal year 2019, 1.0187;

(C) for fiscal year 2020 and thereafter, determined as provided in subsection (4)(b)(ii). The rate must be applied to the entitlement payment for the previous fiscal year as if the payment had been calculated using entitlement share growth rates for fiscal years 2018 and 2019 as provided in subsection (4)(b)(ii).

(5) As used in this section, "local government" means a county, a consolidated local government, an incorporated city, and an incorporated town. A local government does not include a tax increment financing district provided for in subsection (8). The county or consolidated local government is responsible for making an

allocation from the county's or consolidated local government's share of the entitlement share pool to each special district within the county or consolidated local government in a manner that reasonably reflects each special district's loss of revenue sources for which reimbursement is provided in this section. The allocation for each special district that existed in 2002 must be based on the relative proportion of the loss of revenue in 2002.

(6) (a) The entitlement share pools calculated in this section, the amounts determined under 15-1-123(2) for local governments, the funding provided for in subsection (8) of this section, and the amounts determined under 15-1-123(3) for tax increment financing districts are statutorily appropriated, as provided in 17-7-502, from the general fund to the department for distribution to local governments.

(b) (i) The growth amount is the difference between the entitlement share pool in the current fiscal year and the entitlement share pool in the previous fiscal year. The growth factor in the entitlement share must be calculated separately for:

(A) counties;

(B) consolidated local governments; and

(C) incorporated cities and towns.

(ii) In each fiscal year, the growth amount for counties must be allocated as follows:

(A) 50% of the growth amount must be allocated based upon each county's percentage of the prior fiscal year entitlement share pool for all counties; and

(B) 50% of the growth amount must be allocated based upon the percentage that each county's population bears to the state population not residing within consolidated local governments as determined by the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.

(iii) In each fiscal year, the growth amount for consolidated local governments must be allocated as follows:

(A) 50% of the growth amount must be allocated based upon each consolidated local government's percentage of the prior fiscal year entitlement share pool for all consolidated local governments; and

(B) 50% of the growth amount must be allocated based upon the percentage that each consolidated local government's population bears to the state's total population residing within consolidated local governments as determined by the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.

(iv) In each fiscal year, the growth amount for incorporated cities and towns must be allocated as follows:

(A) 50% of the growth amount must be allocated based upon each incorporated city's or town's percentage of the prior fiscal year entitlement share pool for all incorporated cities and towns; and

(B) 50% of the growth amount must be allocated based upon the percentage that each city's or town's population bears to the state's total population residing within incorporated cities and towns as determined by the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.

(v) In each fiscal year, the amount of the entitlement share pool before the growth amount or adjustments made under subsection (7) are applied is to be distributed to each local government in the same manner as the entitlement share pool was distributed in the prior fiscal year.

(7) (a) If the legislature enacts a reimbursement provision that is to be distributed pursuant to this section, the department shall determine the reimbursement amount as provided in the enactment and add the appropriate amount to the entitlement share distribution under this section. The total entitlement share distributions in a fiscal year, including distributions made pursuant to this subsection, equal the local fiscal year entitlement share pool. The ratio of each local government's distribution from the entitlement share pool must be recomputed to determine each local government's ratio to be used in the subsequent year's distribution determination under subsections (6)(b)(ii)(A), (6)(b)(iii)(A), and (6)(b)(iv)(A).

(b) For fiscal year 2018 and thereafter, the growth rate provided for in subsection (4) does not apply to the portion of the entitlement share pool attributable to the reimbursement provided for in 15-1-123(2). The department shall calculate the portion of the entitlement share pool attributable to the reimbursement in 15-1-123(2), including the application of the growth rate in previous fiscal years, for counties, consolidated local governments, and cities and, for fiscal year 2018 and thereafter, apply the growth rate for that portion of the entitlement share pool as provided in 15-1-123(2).

(c) The growth amount resulting from the application of the growth rate in 15-1-123(2) must be allocated as provided in subsections (6)(b)(ii)(A), (6)(b)(iii)(A), and (6)(b)(iv)(A) of this section.

(8) (a) Except for a tax increment financing district entitled to a reimbursement under 15-1-123(3), if a tax increment financing district was not in existence during the fiscal year ending June 30, 2000, then the tax increment financing district is not entitled to any funding. If a tax increment financing district referred to in subsection (8)(b) terminates, then the funding for the district provided for in subsection (8)(b) terminates.

(b) One-half of the payments provided for in this subsection (8)(b) must be made by November 30 and the other half by May 31 of each year. Subject to subsection (8)(a), the entitlement share for tax increment financing districts is as follows:

Flathead	Kalispell - District 2	$4,638
Flathead	Kalispell - District 3	37,231
Flathead	Whitefish District	148,194
Gallatin	Bozeman - downtown	31,158
Missoula	Missoula - 1-1C	225,251
Missoula	Missoula - 4-1C	30,009

(9) The estimated fiscal year entitlement share pool and any subsequent entitlement share pool for local governments do not include revenue received from tax increment financing districts.

(10) When there has been an underpayment of a local government's share of the entitlement share pool, the department shall distribute the difference between the underpayment and the correct amount of the entitlement share. When there has been an overpayment of a local government's entitlement share, the local government shall remit the overpaid amount to the department.

(11) A local government may appeal the department's estimation of the base component, the entitlement share growth rate, or a local government's allocation of the entitlement share pool, according to the uniform dispute review procedure in 15-1-211.

(12) (a) Except as provided in 2-7-517, a payment required pursuant to this section may not be offset by a debt owed to a state agency by a local government in accordance with Title 17, chapter 4, part 1.

(b) A payment required pursuant to this section must be withheld if a local government:

(i) fails to meet a deadline established in 2-7-503(1), 7-6-611(2), 7-6-4024(3), or 7-6-4036(1); and

(ii) fails to remit any amounts collected on behalf of the state as required by 15-1-504 or any other amounts owed to the state or another taxing jurisdiction, as otherwise required by law, within 45 days of the end of a month.

(c) A payment required pursuant to this section may be withheld if, for more than 90 days, a local government fails to:

(i) file a financial report required by 15-1-504;

(ii) remit any amounts collected on behalf of the state as required by 15-1-504; or

(iii) remit any other amounts owed to the state or another taxing jurisdiction."

Section 5. Section 15-1-123, MCA, is amended to read:

"15-1-123. Reimbursement for class eight rate reduction and exemption -- distribution -- appropriations. (1) For the tax rate reductions in 15-6-138(3), the increased exemption amount in 15-6-138(4), the effective tax rate reductions on property under 15-6-145 because of the rate reductions required by the amendments of 15-6-138 in section 2, Chapter 411, Laws of 2011, and section 2, Chapter 396, Laws of 2013, and the effective tax rate reductions on property under 15-6-145 because of the increased exemption amount required by the amendment of 15-6-138 in section 2, Chapter 396, Laws of 2013, the department shall reimburse each local government, as defined in 15-1-121(5), each tax increment financing district, and the 6-mill university levy for the purposes of ~~15-10-108~~ 15-10-109 the difference between property tax collections under 15-6-138 as amended by section 2, Chapter 411, Laws of 2011, and section 2, Chapter 396, Laws of 2013, and under 15-6-145 and the property tax revenue that would have been collected under 15-6-138 and 15-6-145 if 15-6-138 had not been amended by section 2, Chapter 411, Laws of 2011, and section 2, Chapter 396, Laws of 2013. The difference is the annual reimbursable amount for each local government, each tax increment financing district, and the 6-mill levy for the support of the Montana university system under ~~15-10-108~~ 15-10-109.

(2) The department shall distribute the reimbursements calculated in subsection (1) to local governments with the entitlement share payments under 15-1-121(7). ~~For fiscal year 2018 and thereafter, the~~ The growth rate applied to the reimbursement is one-half of the average rate of inflation for the prior 3 years.

(3) The amount determined under subsection (1) for each tax increment financing district must be added to the reimbursement amount for the tax increment financing district as provided in 15-1-121(8)(b) if the tax increment financing district is still in existence. If a tax increment financing district that is entitled to a reimbursement under this section is not listed under 15-1-121(8)(b), the reimbursement must be made to that tax increment financing district at the same time as other districts.

(4) (a) The amount determined under subsection (1) for the 6-mill university levy must be added to current collections and reimbursements for the support of the Montana university system as provided in ~~15-10-108~~ 15-10-109.

(b) The department of administration shall transfer the amount determined under this subsection (4) from the general fund to the state special revenue fund for the support of the Montana university system as provided

in ~~15-10-108~~ 15-10-109."

Section 6. Section 15-1-402, MCA, is amended to read:

"15-1-402. Payment of property taxes or fees under protest. (1) (a) The person upon whom a property tax or fee is being imposed under this title may, before the property tax or fee becomes delinquent, pay under written protest that portion of the property tax or fee protested.

(b) The protested payment must:

(i) be made to the officer designated and authorized to collect it;

(ii) specify the grounds of protest; and

(iii) not exceed the difference between the payment for the immediately preceding tax year and the amount owing in the tax year protested unless a different amount results from the specified grounds of protest, which may include but are not limited to changes in assessment due to reappraisal under 15-7-111.

(c) If the protested property tax or fee is on property that is subject to central assessment pursuant to 15-23-101, the person shall report to the department the grounds of the protest and the amount of the protested payment for each county in which a protested payment was made.

(2) A person appealing a property tax or fee pursuant to Title 15, chapter 2 or 15, including a person appealing a property tax or fee on property that is annually assessed by the department or subject to central assessment pursuant to 15-23-101(1) or (2), shall pay the tax or fee under protest when due in order to receive a refund. If the tax or fee is not paid under protest when due, the appeal or mediation may continue but a tax or fee may not be refunded as a result of the appeal or mediation.

(3) If a protested property tax or fee is payable in installments, a subsequent installment portion considered unlawful by the state tax appeal board need not be paid and an action or suit need not be commenced to recover the subsequent installment. The determination of the action or suit commenced to recover the first installment portion paid under protest determines the right of the party paying the subsequent installment to have it or any part of it refunded to the party or the right of the taxing authority to collect a subsequent installment not paid by the taxpayer plus interest from the date the subsequent installment was due.

(4) (a) Except as provided in subsection (4)(b), all property taxes and fees paid under protest to a county or municipality must be deposited by the treasurer of the county or municipality to the credit of a special fund to be designated as a protest fund and must be retained in the protest fund until the final determination of any action

or suit to recover the taxes and fees unless they are released at the request of the county, municipality, or other local taxing jurisdiction pursuant to subsection (5). This section does not prohibit the investment of the money of this fund in the state unified investment program or in any manner provided in Title 7, chapter 6. The provision creating the special protest fund does not apply to any payments made under protest directly to the state.

(b) (i) Property taxes that are levied by the state against property that is centrally assessed pursuant to 15-23-101 and any protested taxes on industrial property that is annually assessed by the department in a school district that has elected to waive its right to protested taxes in a specific year pursuant to 15-1-409 must be remitted by the county treasurer to the department for deposit as provided in subsections (4)(b)(ii) through (4)(b)(iv).

(ii) The department shall deposit 50% of that portion of the funds levied for the university system pursuant to ~~15-10-108~~ 15-10-109 in the state special revenue fund to the credit of the university system, and the other 50% of the funds levied pursuant to ~~15-10-108~~ 15-10-109 must be deposited in a centrally assessed property tax state special revenue fund.

(iii) Fifty percent of the funds remaining after the deposit of university system funds must be deposited in the state general fund, and the other 50% must be deposited in a centrally assessed property tax state special revenue fund.

(iv) Fifty percent of the funds from a school district that has waived its right to protested taxes must be deposited in the state general fund, and the other 50% must be deposited in a school district property tax protest state special revenue fund.

(5) (a) Except as provided in subsections (5)(b) and (5)(c), the governing body of a taxing jurisdiction affected by the payment of taxes under protest in the second and subsequent years that a tax protest remains unresolved may demand that the treasurer of the county or municipality pay the requesting taxing jurisdiction all or a portion of the protest payments to which it is entitled, except the amount paid by the taxpayer in the first year of the protest. The decision in a previous year of a taxing jurisdiction to leave protested taxes in the protest fund does not preclude it from demanding in a subsequent year any or all of the payments to which it is entitled, except the first-year protest amount.

(b) The governing body of a taxing jurisdiction affected by the payment of taxes under protest on property that is centrally assessed pursuant to 15-23-101 or on industrial property that is assessed annually by the department in the first and subsequent years that a tax protest remains unresolved may demand that the

treasurer of the county or municipality pay the requesting taxing jurisdiction all or a portion of the protest payments to which it is entitled. The decision in a previous year of a taxing jurisdiction to leave protested taxes of centrally assessed property in the protest fund does not preclude it from demanding in a subsequent year any or all of the payments to which it is entitled.

(c) The provisions of subsection (5)(b) do not apply to a school district that has elected to waive its right to its portion of protested taxes on centrally assessed property and on industrial property that is assessed annually by the department for that specific year as provided in 15-1-409.

(6) (a) If action before the county tax appeal board, state tax appeal board, or district court is not commenced within the time specified or if the action is commenced and finally determined in favor of the department of revenue, county, municipality, or treasurer of the county or the municipality, the amount of the protested portions of the property tax or fee must be taken from the protest fund or the centrally assessed property tax state special revenue fund and deposited to the credit of the fund or funds to which the property tax belongs, less a pro rata deduction for the costs of administration of the protest fund and related expenses charged to the local government units.

(b) (i) If the action is finally determined adversely to the governmental entity levying the tax, then the treasurer of the municipality, county, or state entity levying the tax shall, upon receipt of a certified copy of the final judgment in the action and upon expiration of the time set forth for appeal of the final judgment, refund to the person in whose favor the judgment is rendered the amount of the protested portions of the property tax or fee that the person holding the judgment is entitled to recover, together with interest from the date of payment under protest. The department shall refund from the school district property tax protest state special revenue fund the protested portions of property taxes and interest to a taxpayer in a school district in which the school district has elected to waive its right to its portion of protested taxes for that specific year as provided in 15-1-409. If the amount available for the refund in the school district property tax protest state special revenue fund is insufficient to refund the property tax payments, the department shall pay the remainder of the refund from the state general fund.

(ii) The taxing jurisdiction shall pay interest at the rate of interest earned by the pooled investment fund provided for in 17-6-203 for the applicable period.

(c) If the amount retained in the protest fund is insufficient to pay all sums due the taxpayer, the treasurer shall apply the available amount first to tax repayment, then to interest owed, and lastly to costs.

(d) (i) If the protest action is decided adversely to a taxing jurisdiction and the amount retained in the protest fund is insufficient to refund the tax payments and costs to which the taxpayer is entitled and for which local government units are responsible, the treasurer shall bill and the taxing jurisdiction shall refund to the treasurer that portion of the taxpayer refund, including tax payments and costs, for which the taxing jurisdiction is proratably responsible. The treasurer is not responsible for the amount required to be refunded by the state treasurer as provided in subsection (6)(b).

(ii) For an adverse protest action against the state for centrally assessed property, the department shall refund from the centrally assessed property tax state special revenue fund the amount of protested taxes and from the state general fund the amount of interest as required in subsection (6)(b). The amount refunded for an adverse protested action from the centrally assessed property tax state special revenue fund may not exceed the amount of protested taxes or fees required to be deposited for that action pursuant to subsections (4)(b)(ii) and (4)(b)(iii) or, for taxes or fees protested prior to April 28, 2005, an equivalent amount of the money transferred to the fund pursuant to section 3, Chapter 536, Laws of 2005. If the amount available for the adverse protested action in the centrally assessed property tax state special revenue fund is insufficient to refund the tax payments to which the taxpayer is entitled and for which the state is responsible, the department shall pay the remainder of the refund proportionally from the state general fund and from money deposited in the state special revenue fund levied pursuant to ~~15-10-108~~ 15-10-109.

(e) In satisfying the requirements of subsection (6)(d), the taxing jurisdiction, including the state, is allowed not more than 1 year from the beginning of the fiscal year following a final resolution of the protest. The taxpayer is entitled to interest on the unpaid balance at the rate referred to in subsection (6)(b) from the date of payment under protest until the date of final resolution of the protest and at the combined rate of the federal reserve discount rate quoted from the federal reserve bank in New York, New York, on the date of final resolution, plus 4 percentage points, from the date of final resolution of the protest until refund is made.

(7) A taxing jurisdiction, except the state, may satisfy the requirements of this section by use of funds from one or more of the following sources:

(a) imposition of a property tax to be collected by a special tax protest refund levy;

(b) the general fund or any other funds legally available to the governing body; and

(8) If the department revises an assessment that results in a refund of taxes of $5 or less, a refund is not owed."

Section 7. Section 15-10-420, MCA, is amended to read:

"15-10-420. Procedure for calculating levy. (1) (a) Subject to the provisions of this section, a governmental entity that is authorized to impose mills may impose a mill levy sufficient to generate the amount of property taxes actually assessed in the prior year plus one-half of the average rate of inflation for the prior 3 years. The maximum number of mills that a governmental entity may impose is established by calculating the number of mills required to generate the amount of property tax actually assessed in the governmental unit in the prior year based on the current year taxable value, less the current year's newly taxable value, plus one-half of the average rate of inflation for the prior 3 years.

(b) A governmental entity that does not impose the maximum number of mills authorized under subsection (1)(a) may carry forward the authority to impose the number of mills equal to the difference between the actual number of mills imposed and the maximum number of mills authorized to be imposed. The mill authority carried forward may be imposed in a subsequent tax year.

(c) For the purposes of subsection (1)(a), the department shall calculate one-half of the average rate of inflation for the prior 3 years by using the consumer price index, U.S. city average, all urban consumers, using the 1982-84 base of 100, as published by the bureau of labor statistics of the United States department of labor.

(2) A governmental entity may apply the levy calculated pursuant to subsection (1)(a) plus any additional levies authorized by the voters, as provided in 15-10-425, to all property in the governmental unit, including newly taxable property.

(3) (a) For purposes of this section, newly taxable property includes:

(i) annexation of real property and improvements into a taxing unit;

(ii) construction, expansion, or remodeling of improvements;

(iii) transfer of property into a taxing unit;

(iv) subdivision of real property; and

(v) transfer of property from tax-exempt to taxable status.

(b) Newly taxable property does not include an increase in value that arises because of an increase in the incremental value within a tax increment financing district.

(4) (a) For the purposes of subsection (1), the taxable value of newly taxable property includes the release of taxable value from the incremental taxable value of a tax increment financing district because of:

(i) a change in the boundary of a tax increment financing district;

(ii) an increase in the base value of the tax increment financing district pursuant to 7-15-4287; or

(iii) the termination of a tax increment financing district.

(b) If a tax increment financing district terminates prior to the certification of taxable values as required in 15-10-202, the increment value is reported as newly taxable property in the year in which the tax increment financing district terminates. If a tax increment financing district terminates after the certification of taxable values as required in 15-10-202, the increment value is reported as newly taxable property in the following tax year.

(c) For the purpose of subsection (3)(a)(ii), the value of newly taxable class four property that was constructed, expanded, or remodeled property since the completion of the last reappraisal cycle is the current year market value of that property less the previous year market value of that property.

(d) For the purpose of subsection (3)(a)(iv), the subdivision of real property includes the first sale of real property that results in the property being taxable as class four property under 15-6-134 or as nonqualified agricultural land as described in 15-6-133(1)(c).

(5) Subject to subsection (8), subsection (1)(a) does not apply to:

(a) school district levies established in Title 20; or

(b) a mill levy imposed for a newly created regional resource authority.

(6) For purposes of subsection (1)(a), taxes imposed do not include net or gross proceeds taxes received under 15-6-131 and 15-6-132.

(7) In determining the maximum number of mills in subsection (1)(a), the governmental entity:

(a) may increase the number of mills to account for a decrease in reimbursements; and

(b) may not increase the number of mills to account for a loss of tax base because of legislative action that is reimbursed under the provisions of 15-1-121(7).

(8) The department shall calculate, on a statewide basis, the number of mills to be imposed for purposes of ~~15-10-108~~ 15-10-109, 20-9-331, 20-9-333, 20-9-360, and 20-25-439. However, the number of mills calculated by the department may not exceed the mill levy limits established in those sections. The mill calculation must be

established in tenths of mills. If the mill levy calculation does not result in an even tenth of a mill, then the calculation must be rounded up to the nearest tenth of a mill.

(9) (a) The provisions of subsection (1) do not prevent or restrict:

(i) a judgment levy under 2-9-316, 7-6-4015, or 7-7-2202;

(ii) a levy to repay taxes paid under protest as provided in 15-1-402;

(iii) an emergency levy authorized under 10-3-405, 20-9-168, or 20-15-326;

(iv) a levy for the support of a study commission under 7-3-184;

(v) a levy for the support of a newly established regional resource authority;

(vi) the portion that is the amount in excess of the base contribution of a governmental entity's property tax levy for contributions for group benefits excluded under 2-9-212 or 2-18-703;

(vii) a levy for reimbursing a county for costs incurred in transferring property records to an adjoining county under 7-2-2807 upon relocation of a county boundary; or

(viii) a levy used to fund the sheriffs' retirement system under 19-7-404(2)(b).

(b) A levy authorized under subsection (9)(a) may not be included in the amount of property taxes actually assessed in a subsequent year.

(10) A governmental entity may levy mills for the support of airports as authorized in 67-10-402, 67-11-301, or 67-11-302 even though the governmental entity has not imposed a levy for the airport or the airport authority in either of the previous 2 years and the airport or airport authority has not been appropriated operating funds by a county or municipality during that time.

(11) The department may adopt rules to implement this section. The rules may include a method for calculating the percentage of change in valuation for purposes of determining the elimination of property, new improvements, or newly taxable value in a governmental unit."

On or before the due date, including extensions, of the pass-through entity's information return provided in 15-30-3302, the pass-through entity shall furnish to the second-tier pass-through entity a record of the refundable credit that may be claimed for the amount paid on its behalf.

Section 14. Section 17-2-107, MCA, is amended to read:

"17-2-107. Accurate accounting records and interentity loans. (1) The department shall record receipts and disbursements for treasury funds and for accounting entities within treasury funds and shall maintain records in a manner that reflects the total cash and invested balance of each fund and each accounting entity. The department shall adopt the necessary procedures to ensure that interdepartmental or intradepartmental transfers of money or loans do not result in inflation of figures reflecting total governmental costs and revenue.

(2) (a) Except as provided in 77-1-108 and subject to 17-2-105, when the expenditure of an appropriation from a fund designated in 17-2-102(1) through (3) is necessary and the cash balance in the accounting entity from which the appropriation was made is insufficient, the department may authorize a temporary loan, bearing no interest, of unrestricted money from other accounting entities if there is reasonable evidence that the income will be sufficient to repay the loan within 1 calendar year and if the loan is recorded in the state accounting records. An accounting entity receiving a loan or an accounting entity from which a loan is made may not be so impaired that all proper demands on the accounting entity cannot be met even if the loan is extended.

(b) (i) When an expenditure from a fund or subfund designated in 17-2-102(4) is necessary and the cash

balance in the fund or subfund from which the expenditure is to be made is insufficient, the commissioner of higher education may authorize a temporary loan, bearing interest as provided in subsection (4) of this section, of money from the agency's other funds or subfunds if there is reasonable evidence that the income will be sufficient to repay the loan within 1 calendar year and if the loan is recorded in the state accounting records. A fund or subfund receiving a loan or from which a loan is made may not be so impaired that all proper demands on the fund or subfund cannot be met even if the loan is extended.

(ii) One accounting entity within each fund or subfund designated in 17-2-102(4) must be established for the sole purpose of recording loans between the funds or subfunds. This accounting entity is the only accounting entity within each fund or subfund that may receive a loan or from which a loan may be made.

(c) A loan made under subsection (2)(a) or (2)(b) must be repaid within 1 calendar year of the date on which the loan is approved unless it is extended under subsection (3) or by specific legislative authorization.

(3) Under unusual circumstances, the director of the department or the board of regents may grant one extension for up to 1 year for a loan made under subsection (2)(a) or (2)(b). The director or board shall prepare a written justification and proposed repayment plan for each loan extension authorized and shall furnish a copy of the written justification and proposed repayment plan to the house appropriations and senate finance and claims committees at the next legislative session.

(4) Any loan from the current unrestricted subfund to funds designated in 17-2-102(4)(a)(iv) and (4)(b) through (4)(f) must bear interest at a rate equivalent to the previous fiscal year's average rate of return on the board of investments' short-term investment pool.

(5) If for 2 consecutive fiscal yearends a loan or an extension of a loan has been authorized to the same accounting entity as provided in subsection (2) or (3), the department or the commissioner of higher education shall submit to the legislative fiscal analyst by September 1 of the following fiscal year a written report containing an explanation as to why the second loan or extension was made, an analysis of the solvency of the accounting entity or accounting entities within the university fund or subfund, and a plan for repaying the loans. The report must be provided in an electronic format.

(6) If for 2 consecutive fiscal yearends an accounting entity in a fund or subfund designated in 17-2-102(4) has a negative cash balance, the commissioner of higher education shall submit to the legislative fiscal analyst by September 1 of the following fiscal year a written report containing an explanation as to why the accounting entity has a negative cash balance, an analysis of the solvency of the accounting entity, and a plan

to address any problems concerning the accounting entity's negative cash balance or solvency. The report must be provided in an electronic format.

(7) (a) An accounting entity in a fund designated in 17-2-102(1) through (3) may not have a negative cash balance at fiscal yearend. The department may, however, allow a fund type within each agency to carry a negative balance at any point during the fiscal year if the negative cash balance does not exist for more than 7 working days.

(b) (i) Except as provided in subsection (7)(b)(ii) of this section, a unit of the university system shall maintain a positive cash balance in the funds and subfunds designated in 17-2-102(4).

(ii) If a fund or subfund inadvertently has a negative cash balance, the department may allow the fund or subfund to carry the negative cash balance for no more than 7 working days. If the negative cash balance exists for more than 7 working days, a transaction may not be processed through the statewide accounting, budgeting, and human resource system for that fund or subfund.

(8) Notwithstanding the provisions of subsections (2) through (4), the department may authorize loans to accounting entities in the federal and state special revenue funds with long-term repayment whenever necessary because of the timing of the receipt of agreed-upon reimbursements from federal, private, or other governmental entity sources for disbursements made. If possible, the loans must be made from funds other than the general fund. The department may approve the loans if the requesting agency can demonstrate that the total loan balance does not exceed total receivables from federal, private, or other governmental entity sources and receivables have been billed on a timely basis. The loan must be repaid under terms and conditions that may be determined by the department or by specific legislative authorization.

(9) A loan may not be authorized under this section to any fund or accounting entity that is owed federal or other third-party funds unless the requesting agency certifies to the agency approving the loan that it has and will continue to bill the federal government or other third party for the requesting agency's share of costs incurred in the fund or accounting entity on the earliest date allowable under federal or other third-party regulations applicable to the program. The requesting agency shall recertify its timely billing status to the agency that approved the loan at least monthly during the term of the loan. If at any time the requesting agency fails to recertify the timely billing, the agency that approved the loan shall cancel the loan and return the money to its original source."

(i) attainment of industry-recognized professional certifications; and

(ii) work-based learning programs, such as internships and registered apprenticeships.

(2) The superintendent of public instruction shall adjust the weighted factors outlined in subsection (1) as necessary to ensure that the allocations do not exceed the amount appropriated.

(3) Except for other expenditures outlined in subsection (1)(d), funding must be based upon the calculation for secondary K-12 career and vocational/technical education programs of the high school district in the year preceding the year for which funding is requested. Funding for the expenditures referred to in subsection (1)(d) must be based on the calculation for the secondary K-12 career and vocational/technical education programs of the high school district for the 2 years preceding the year for which funding is requested. The funding must be computed for each separate secondary K-12 career and vocational/technical education program.

Section 18. Section 20-9-502, MCA, is amended to read:

"20-9-502. Purpose and authorization of building reserve fund -- levy for school transition costs. (1) The trustees of any district may establish a building reserve fund to budget for and expend funds for any of the purposes set forth in this section. Appropriate subfunds must be created to ensure separate tracking of the expenditure of funds from voted and nonvoted levies and transfers for school safety pursuant to 20-9-236.

(2) (a) A voted levy may be imposed and a subfund must be created with the approval of the qualified electors of the district for the purpose of raising money for the future construction, equipping, or enlarging of school buildings or for the purpose of purchasing land needed for school purposes in the district. In order to submit to the qualified electors of the district a building reserve proposition for the establishment of or addition to a building reserve, the trustees shall pass a resolution that specifies:

(i) the purpose or purposes for which the new or addition to the building reserve will be used;

(ii) the duration of time over which the new or addition to the building reserve will be raised in annual, equal installments;

(iii) the total amount of money that will be raised during the duration of time specified for the levy; and

(iv) any other requirements under 15-10-425 and 20-20-201 for the calling of an election.

(b) Except as provided in subsection (4)(b), a building reserve tax authorization may not be for more than 20 years.

(c) The election must be conducted in accordance with the school election laws of this title, and the electors qualified to vote in the election must be qualified under the provisions of 20-20-301. The ballot for a building reserve proposition must be substantially in compliance with 15-10-425.

(d) The building reserve proposition is approved if a majority of those electors voting at the election approve the establishment of or addition to the building reserve. The annual budgeting and taxation authority of the trustees for a building reserve is computed by dividing the total authorized amount by the specified number of years. The authority of the trustees to budget and impose the taxation for the annual amount to be raised for the building reserve lapses when, at a later time, a bond issue is approved by the qualified electors of the district for the same purpose or purposes for which the building reserve fund of the district was established. Whenever

a subsequent bond issue is made for the same purpose or purposes of a building reserve, the money in the building reserve must be used for the purpose or purposes before any money realized by the bond issue is used.

(3) (a) A subfund must be created to account for revenue and expenditures for school major maintenance and repairs authorized under this subsection (3). Except as provided in subsection (3)(g), the trustees of a district may authorize and impose a levy of no more than 10 mills on the taxable value of all taxable property within the district for that school fiscal year for the purposes of raising revenue for identified school major maintenance projects meeting the requirements of 20-9-525(2). The 10-mill limit under this section must be calculated using the district's total taxable valuation most recently certified by the department of revenue under 15-10-202. The amount of money raised by the levy, the deposits and transfers authorized under subsection (3)(f) of this section, and anticipated state aid pursuant to 20-9-525(3) may not exceed the district's school major maintenance amount. For the purposes of this section, the term "school major maintenance amount" means the sum of $15,000 and the product of $100 multiplied by the district's budgeted ANB for the prior fiscal year. To authorize and impose a levy under this subsection (3), the trustees shall:

(i) following public notice requirements pursuant to 20-9-116, adopt no later than June 1 for fiscal year 2017 only and no later than March 31 for fiscal years 2018 and subsequent fiscal years, a resolution:

(A) identifying the anticipated school major maintenance projects for which the proceeds of the levy, the deposits and transfers authorized under subsection (3)(f) of this section, and anticipated state aid pursuant to 20-9-525(3) will be used; and

(B) estimating a total dollar amount of money to be raised by the levy, the deposits and transfers authorized under subsection (3)(f) of this section, anticipated state aid pursuant to 20-9-525(3), and the resulting estimated number of mills to be levied using the district's taxable valuation most recently certified by the department of revenue under 15-10-202; and

(ii) include the amount of any final levy to be imposed as part of its final budget meeting noticed in compliance with 20-9-131.

(b) Proceeds from the levy may be expended only for the purposes under 20-9-525(2), and the expenditure of the money must be reported in the annual trustees' report as required by 20-9-213.

(c) Whenever the trustees of a district impose a levy pursuant to this section during the current school fiscal year, they shall budget for the proceeds of the levy, the deposits and transfers authorized under subsection (3)(f) of this section, and anticipated state aid pursuant to 20-9-525(3) in the district's building reserve fund

budget. Any expenditures of the funds must be made in accordance with the financial administration provisions of this title for a budgeted fund.

(d) When a tax levy pursuant to this section is included as a revenue item on the final building reserve fund budget, the county superintendent shall report the levy requirement to the county commissioners by the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values and a levy on the district must be made by the county commissioners in accordance with 20-9-142.

(e) A subfund in the building reserve fund must be created for the deposit of proceeds from the levy, the deposits and transfers authorized under subsection (3)(f) of this section, and anticipated state aid pursuant to 20-9-525(3).

(f) If the imposition of 10 mills pursuant to subsection (3)(a) is estimated by the trustees to generate an amount less than the maximum levy revenue specified in subsection (3)(a), the trustees may deposit additional funds from any lawfully available revenue source and may transfer additional funds from any lawfully available fund of the district to the subfund provided for in subsection (3)(a), up to the difference between the revenue estimated to be raised by the imposition of 10 mills and the maximum levy revenue specified in subsection (3)(a). The district's local effort for purposes of calculating its eligibility for state school major maintenance aid pursuant to 20-9-525 consists of the combined total of funds raised from the imposition of 10 mills and additional funds raised from deposits and transfers in compliance with this subsection (3)(f).

(g) A district awarded a quality schools facility grant pursuant to ~~[former]~~ former Title 90, chapter 6, part 8, during the biennium beginning July 1, 2017, may not impose the levy under this subsection (3) during the biennium beginning July 1, 2017.

(4) (a) A voted levy may be imposed and a subfund must be created with the approval of the qualified electors of the district to provide funding for transition costs incurred when the trustees:

(i) open a new school under the provisions of Title 20, chapter 6;

(ii) close a school;

(iii) replace a school building;

(iv) consolidate with or annex another district under the provisions of Title 20, chapter 6; or

(v) receive approval from voters to expand an elementary district into a K-12 district pursuant to 20-6-326.

(b) Except as provided in subsection (4)(c), the total amount the trustees may submit to the electorate

for transition costs may not exceed the number of years specified in the proposition times the greater of 5% of the district's maximum general fund budget for the current year or $250 per ANB for the current year. The duration of the levy for transition costs may not exceed 6 years.

(c) If the levy for transition costs is for consolidation or annexation:

(i) the limitation on the amount levied is calculated using the ANB and the maximum general fund budget for the districts that are being combined; and

(ii) the proposition must be submitted to the qualified electors in the combined district.

(d) The levy for transition costs may not be considered as outstanding indebtedness for the purpose of calculating the limitation in 20-9-406.

(5) A subfund in the building reserve fund must be created for the funds transferred to the building reserve fund for school safety and security pursuant to 20-9-236."

(3) Service by publication is complete on the date of the last publication required by subsection (2).

(4) A summons required under this ~~chapter~~ part must:

(a) be directed to the parent whose parental rights are subject to termination; and

Section 37. Section 82-11-111, MCA, is amended to read:

"82-11-111. (Temporary) Powers and duties of board. (1) The board shall make investigations that it considers proper to determine whether waste exists or is imminent or whether other facts exist that justify any action by the board under the authority granted by this chapter.

(2) Subject to the administrative control of the department under 2-15-121, the board shall:

(a) require measures to be taken to prevent contamination of or damage to surrounding land or underground strata caused by drilling operations and production, including but not limited to regulating the disposal or injection of water and disposal of oil field wastes;

(b) classify wells as oil or gas wells or class II injection wells for purposes material to the interpretation or enforcement of this chapter;

(c) adopt and enforce rules and orders to implement this chapter.

(3) The board shall determine and prescribe which producing wells are defined as "stripper wells" and which wells are defined as "wildcat wells" and make orders that in its judgment are required to protect those wells and provide that stripper wells may be produced to capacity if that is considered necessary in the interest of

conservation.

(4) With respect to any pool from which gas was being produced by a gas well on or prior to April 1, 1953, this chapter does not authorize the board to limit or restrain the rate, daily or otherwise, of production of gas from that pool by any existing well or a well drilled after that date and producing from that pool to less than the rate at which the well can be produced without adversely affecting the quantity of gas ultimately recoverable by the well.

(5) The board has exclusive jurisdiction over all class II injection wells and all pits and ponds in relation to those injection wells. The board may:

(a) issue, suspend, revoke, modify, or deny permits to operate class II injection wells consistent with rules made by it;

(b) examine plans and other information needed to determine whether a permit should be issued or require changes in plans as a condition to the issuance of a permit;

(i) investigate conditions relating to violations of permit conditions;

(ii) have access to and copy records required under this chapter;

(iii) inspect monitoring equipment or methods; and

(iv) sample fluids that the operator is required to sample; and

(e) adopt standards for the design, construction, testing, and operation of class II injection wells.

(a) when the person responsible for an abandoned well, sump, or hole cannot be identified or located or, if the person is identified or located, when the person does not have sufficient financial resources to properly plug the well, sump, or hole; or

(b) when a previously abandoned well, sump, or hole is the cause of potential environmental problems and no responsible party can be identified or located or, if a responsible party can be identified and located, when the person does not have sufficient financial resources to correct the problems.

(7) The board may take measures to demonstrate to the general public the importance of the state's oil

and gas exploration and production industry, to encourage and promote the wise and efficient use of energy, to promote environmentally sound exploration and production methods and technologies, to develop the state's oil and gas resources, and to support research and educational activities concerning the oil and natural gas exploration and production industry. The board may:

(a) make grants or loans and provide other forms of financial assistance as necessary or appropriate from available funds to qualified persons for research, development, marketing, educational projects, and processes or activities directly related to the state's oil and gas exploration and production industry;

(b) enter into contracts or agreements to carry out the purposes of this subsection (7), including the authority to contract for the administration of an oil and gas research, development, marketing, and educational program;

(3) The department may enter into an agreement with the organization selected pursuant to the rules provided for in subsection (2) specifying times, sites, and other conditions under which paddlefish eggs may be collected. The agreement must require the organization to maintain records of revenue collected and related expenses incurred and to make the records available to the department and the legislative auditor upon request.

(4) (a) Thirty percent of the proceeds from the sale of paddlefish egg caviar products in excess of the costs of collection, processing, and marketing must be deposited in a state special revenue fund established for the department. The fund and any interest earned on the fund must be used to benefit the paddlefish fishery, including fishing access, administration, improvements, habitat, and fisheries management, or to provide information to the public regarding fishing in eastern Montana, which could include the design and construction of interpretive displays.

(b) Seventy percent of the proceeds from the sale of paddlefish egg caviar products in excess of the costs of collection, processing, and marketing must be paid to the nonprofit organization that processes and markets the caviar. The nonprofit organization's administrative costs must be paid from its share of the proceeds. A paddlefish grant advisory committee must be appointed by the commission and consist of one member from

the organization selected pursuant to the rules provided for in subsection (2), two area local government representatives, and two representatives of area anglers. The committee shall solicit and review historical, cultural, recreational, and fish and wildlife proposals and fund projects. The committee shall notify the commission of its actions. Proceeds may be used as seed money for grants.

(3) The person who is to prepay shall guarantee to the hard-rock mining impact board, through an appropriate financial institution, as may be required by the board, that property tax prepayments will be paid as needed for expenditures created by the impacts of the large-scale mineral development.

(4) When the mineral development facilities are completed and assessed by the department of revenue, they are subject during the first 3 years and thereafter to taxation as all other property similarly situated, except that in each year after the start of production, the local government unit that received a property tax prepayment shall provide for repayment of prepaid property taxes in accordance with subsection (5).

(5) A local government unit that received all or a portion of the property tax prepayment under this section shall provide for tax crediting as specified in the impact plan. The tax credit allowed in any year may not, however, exceed the tax obligation of the developer for that year, and the time period for tax crediting is limited to the productive life of the mining operation."
