Legislative Counsel’s Digest:

1 Existing law provides for the organization of a fire protection district by an
2 ordinance adopted by a board of county commissioners or by the approval of the
3 voters of a proposed fire protection district. (Chapter 474 of NRS) **Section 3** of this
4 bill authorizes a board of county commissioners of a county whose population is
5 less than 700,000 (currently all counties other than Clark County) to consolidate
6 two or more fire protection districts if: (1) each district is contiguous to at least one
7 other district; (2) the territory of each district is located entirely within the county;
8 and (3) the rates of certain taxes relating to fire protection levied by the board of
9 county commissioners within each district are equal at the time of consolidation.
10 **Section 3** provides that a consolidation may be initiated by the filing of a petition
11 with the board of county commissioners by a majority of the owners of property
12 within each such district or the adoption of a resolution by the board proposing the
13 consolidation of the districts. **Section 3** requires the board of county commissioners
14 upon receiving a petition or adopting a resolution to conduct a hearing and further
15 requires the board to adopt an ordinance consolidating the fire protection districts if
16 the board finds that the consolidation of the districts is feasible and in the best
17 interests of the county and the districts. Upon the consolidation of two or more fire
18 protection districts, **section 3** provides that owners of real and personal property
19 located within the consolidated district are entitled to certain partial tax abatements
20 to which the owners were otherwise entitled prior to consolidation.

21 Existing law requires the treasurer of a fire protection district created by county
22 ordinance to maintain a fire protection operating fund and a district emergency
23 fund. (NRS 474.510) **Section 9** of this bill prohibits the balance of the district

42 any ordinance adopted pursuant to subsection 3 to be certified by the

1 6. If an adjustment of boundaries pursuant to this section
2 causes:

3 (a) Part of the area of one fire protection district to be excluded
4 from that district and added to the area of another fire protection
5 district, the districts may, but are not required to, enter into such an
6 agreement as they determine equitable to address the apportionment
7 of debts, obligations, liabilities and assets.

8 (b) All of the area of one fire protection district to be excluded
9 from that district and added to the area of another fire protection
10 district, the debts, obligations, liabilities and assets of the district
11 from which the area is excluded must be assumed by the district to
