3 (a) Any programs authorized by the commission must be authorized  
4 by December 31, 2024.

5 (b) If a city has established an authorized automated vehicle  
6 noise enforcement camera pilot program under this section, the  
7 compensation paid to the manufacturer or vendor of the equipment used  
8 must be based upon the value of the equipment and services provided

16 of the driver or of passengers in the vehicle;

17 (ii) The law enforcement agency of the city or county government  
18 shall install two signs facing opposite directions within 200 feet,  
19 or otherwise consistent with the uniform manual on traffic control

14 meters by law enforcement to measure lighting levels at locations  
15 where a serious injury or fatality involving a vehicle has occurred.  
16 However, the funds must be held in unallotted status until the  
17 commission submits a spending plan for the pilot program to the

23 speeds and driver behaviors, such as hard braking, on a statewide  
24 basis and in selected geographical areas based upon demographic  
25 characteristics and crash history. The commission must provide an  
26 annual report summarizing findings from the telematics data to the

34 on an assessment of ignition interlock device compliance rates, and  
35 the willingness and ability to have staff dedicated to this activity.  
36 By June 30, 2025, the commission must provide to the transportation  
37 committees of the legislature a status report on the specific  
38 locations selected and any outcome information.

1        (10) \$2,000,000 of the highway safety account—state appropriation

11 (c) The work group must make recommendations of how the  
12 department of transportation could better work in partnership with  
13 local jurisdictions to ensure that roadway construction projects can  
14 be performed when funds are made available in the omnibus  
15 transportation appropriations act even if the department of  
16 transportation does not have the capacity to be the project manager  
17 on a project and a local jurisdiction is ready, willing, and able to  
18 implement the project within the time frames envisioned in the  
19 omnibus transportation appropriations act. In developing its

7 law and evaluation of its utility, to include possible modification  
8 of the criteria for eligibility and tax incentive amount maximums, as  
9 applicable.

10 (b) Design development must include recommendations for  
11 encouraging vehicle conversions for smaller commercial vehicle fleets  
12 and owner-operators of commercial vehicles, as well as tools for

27 transportation research.

28 (a) The recommendation on the statewide household travel survey  
29 must be based on how well a statewide survey investment would:  
30 Address policy questions related to household travel; address gaps  
31 between separate regional and local transportation models; and create  
32 a dataset to allow both for analysis and response to policymakers'  
33 questions relating to household travel and for transportation  
34 modeling and development. In evaluating potential survey options, the  
35 committee shall consider opportunities for the state to partner and  
36 expand on developed established household travel surveys, including  
37 surveys conducted at both the Puget Sound regional council and the  
38 federal highway administration. In its recommendation, the committee  
39 shall outline the process required for a statewide survey, including  
40 the costs and timing of each option.

1 (b) The committee shall recommend an agency or agencies to  
2 perform ongoing analysis of a statewide household travel survey and  
3 other transportation research. The committee shall consider the  
4 ability of an agency or agencies to meet shorter timeline policy

10 oversee the development of tools and methodologies to assist in  
11 program delivery evaluation for programs that receive appropriations  
12 from the carbon emissions reduction account. Program delivery  
13 evaluation must include carbon emissions reduction estimates by  
14 program and by unit of time, program cost per unit of emission  
15 reduction, quantified benefits to vulnerable populations and  
16 overburdened communities by program cost, any additional appropriate  
17 qualitative and quantitative metrics, and actionable recommendations  
18 for improvements in program delivery. A report is due to the  
19 transportation committees of the legislature by October 1, 2024.

20 ~~((8))~~ (7) \$500,000 of the motor vehicle account—state

24 217~~((11) of this act)~~ (10), chapter 472, Laws of 2023, of highway,  
25 road, and freight rail transportation needs, options, and impacts  
26 from shifting the movement of freight and goods that currently move  
27 by barge through the lower Snake river dams to highways, other roads,  
28 and rail.

29 (a) The department shall include the independent review team in  
30 all phases of the analysis to enable the team to develop an  
31 independent assessment of the analysis, assumptions, stakeholder  
32 engagement, and cost and impact estimates. Summary findings from the  
33 independent assessment must be provided to the department, the  
34 governor's office, and the transportation committees of the  
35 legislature on a quarterly basis, with ~~((a final))~~ an end of biennium  
36 report due to the governor and the transportation committees of the  
37 legislature by June 30, 2025.

38 (b) The independent review team must conduct an independent  
39 stakeholder engagement effort. The river transportation work group  
40 must be formed to provide data and guidance to the independent review

1 team for the independent stakeholder engagement effort. The river  
2 transportation work group must be made up of stakeholders, including  
3 farming and agricultural production, (~~federally recognized tribes~~  
4 ~~and~~) fishing industry, tug and barge operators, shippers and  
5 receivers, public ports, railroad operators, cruise lines, the  
6 federal highway administration, and the army corps of engineers.  
7 Consultations with federally recognized tribes must also occur in  
8 coordination with the Washington state department of transportation.

9 (c) The independent review team shall make regular presentations  
10 to the joint transportation committee and, by request, to the  
11 transportation committees of the legislature.

12 (~~(9)~~) (8) The joint transportation committee shall also convene  
13 a work group that includes, but is not limited to, the executive  
14 committee of the joint transportation committee, the office of  
15 financial management, the Washington state department of  
16 transportation, and the Washington state treasurer's office to  
17 develop recommendations, by October 15, 2023, to meet the challenge  
18 of identifying an achievable delivery schedule for completing  
19 transportation projects across the state.

20 (9) \$300,000 of the multimodal transportation account—state  
21 appropriation is for the joint transportation committee to review  
22 the composition of boards of Washington transit agencies. As part of  
23 the assessment, the review must survey current governance structures  
24 identifying unique or innovative models, and best practices currently  
25 being deployed. Working with agencies and key stakeholders, the study  
26 must develop a list of options for transit agencies to consider for  
27 increasing representation or engagement from transit riders, labor,  
28 and other underrepresented community groups identified through the  
29 process. A report of preliminary findings must be submitted to the  
30 transportation committees of the legislature by December 15, 2024. A  
31 final report is due to the transportation committees of the  
32 legislature by June 30, 2025, including any recommended revisions to  
33 current statutes that are necessary to implement any identified  
34 options.

35 (10) (a) \$400,000 of the motor vehicle account—state appropriation  
36 is for the joint transportation committee to conduct a study and make  
37 recommendations on alternative project delivery methods that may be  
38 used by the Washington state department of transportation in public  
39 works contracting. The study must review use of design-build, design-  
40 bid-build, progressive design build, general contractor/construction

1 manager, public-private partnerships, and other contracting methods,  
2 and how choice of project delivery method impacts cost, contract  
3 competition, and project delivery schedule. The study must also  
4 include recommendations on any changes to current practices and  
5 statutory requirements.

6 (b) In developing project delivery method recommendations, the  
7 joint transportation committee must engage with industry stakeholders  
8 including, but not limited to, engineering, contracting, and women  
9 and minority-owned business communities.

10 (c) To assist the department as it continues to make progress on  
11 meeting the requirements of the federal *U.S. v. Washington* court  
12 injunction and to address estimated programmatic cost increases, and  
13 within the funding provided in this subsection, the department shall  
14 analyze contracting methods, alternative bundling concepts, and other  
15 options to manage costs.

16 (d) A preliminary report is due to the office of the governor and  
17 the transportation committees of the legislature by December 15,  
18 2024. A final report is due to the office of the governor and the  
19 transportation committees of the legislature by June 30, 2025.

20 (11) (a) \$300,000 of the motor vehicle account—state appropriation  
21 is to conduct a study and make recommendations on opportunities for  
22 streamlining current Washington state department of transportation  
23 project permitting practices to accelerate project delivery. The  
24 study should:

25 (i) Identify the types of permits required for projects by local,  
26 state, and federal agencies for various project types across the  
27 state;

28 (ii) Conduct a case study of at least six recently completed  
29 projects that are geographically distributed across the state, and a  
30 mix of projects that were either completed in a timely manner or  
31 faced delays; and

32 (iii) Review and recommend practices for streamlining the  
33 permitting processes with local, state, and federal agencies that  
34 would result in accelerating project delivery.

35 (b) A preliminary report is due to the transportation committees  
36 of the legislature by December 15, 2024. A final report is due to  
37 transportation committees of the legislature by June 30, 2025.

38 (12) (a) \$300,000 of the motor vehicle account—state appropriation  
39 is to conduct a study and make recommendations on opportunities for  
40 innovative project delivery practices that could be utilized to

1 accelerate project delivery. The study should evaluate practices  
2 utilized around the country and evaluate Washington state-specific  
3 possibilities such as:

4 (i) Increased use of the advanced environmental mitigation  
5 revolving account and advance right-of-way revolving fund as cost  
6 containment strategies; and

7 (ii) Benefits and costs associated with bundling bridge, culvert,  
8 or other groups of projects into single procurement packages.

9 (b) A preliminary report is due to the transportation committees  
10 of the legislature by December 15, 2024. A final report is due to  
11 transportation committees of the legislature by June 30, 2025.

11 95 percent or greater license plate reading accuracy.

12 (b) The study must review current laws, including assessing  
13 underlying policies related to prohibitions on program cost coverage  
14 coming from infraction or other revenues generated by advanced  
15 technology systems, and identify provisions needed to enable a future  
16 technology-based safety and compliance program.

11 provided in this subsection lapses.

12 (6)(a) \$1,600,000 of the motor vehicle account—state  
13 appropriation is provided solely for real estate services activities.  
14 The legislature finds that the following sections of public roadway  
15 owned by the department are no longer necessary for the state highway  
16 system:

17 (i) That segment of 267th Street NW located south of state route  
18 number 532 and west of Interstate 5 in the vicinity of the  
19 intersection of state route number 532 and 19th Avenue NW, serving  
20 parcel numbers: 32042600202300, 32042600102200, 32042600100600,  
21 32042600100700, 32042600100400, 32042600100800, and 32042600102300;

22 (ii) That segment of Tester Road located adjacent to the south  
23 side of state route number 532;

24 (iii) That segment of 91st Ave SE located adjacent to the south  
25 side of state route number 522 in the vicinity of the intersection  
26 with 212th Street SE;

27 (iv) That segment of Bostian Road including as it turns and  
28 becomes 224th Street SE located on the south side of state route  
29 number 522 in the vicinity of 87th Ave SE;

30 (v) That segment of W. Bostian Road located on the north side of  
31 state route number 522; and

32 (vi) That segment of 268th Street NW located south of state route  
33 number 532.

34 (b) Therefore, pursuant to RCW 36.75.090, the department shall  
35 certify that these roadways are no longer needed by the state and  
36 convey the roadways to the county for continued use as public  
37 highways for motor vehicle use. Additionally, in consideration of the  
38 value of maintenance services provided by the county on the roadway  
39 comprising 267th Street NW during the time of department ownership,  
40 the department shall grant temporary access permits, for those

1 properties abutting the conveyed segment of 267th Street NW, to use  
2 19th Avenue NW for access to state route number 532, upon such terms  
3 and conditions as the department deems appropriate. The temporary  
4 access permits may be terminated when the conveyed segment of 267th  
5 Street NW is extended out to intersect with Sunday Lake Road, or when  
6 an alternate access route is established connecting to Sunday Lake  
7 Road.

8 (7) (a) \$500,000 of the multimodal transportation account—state  
9 appropriation is provided solely for the department to explore  
10 alternative uses of the state's highway rights-of-way to address  
11 pressing public needs relating to climate change, equitable  
12 communications, renewable energy generation, electrical transmission  
13 and distribution projects, broadband projects, vegetation management,  
14 inductive charging in travel lanes, alternative fueling facilities,  
15 and other appropriate uses. In exploring alternative uses of the  
16 state's highway rights-of-way, the department shall:

17 (i) Review the utility accommodation policy and make  
18 recommendations to update the policy to include clean energy and  
19 connectivity projects under 23 C.F.R. Part 645. At a minimum, the  
20 recommendations for updated clean energy and connectivity projects  
21 must include renewable energy and electrical transmission and  
22 distribution;

23 (ii) Review and update the department's integrated roadside  
24 vegetation management plans to maximize carbon sequestration and  
25 develop habitat and forage for native pollinators, Monarch  
26 butterflies, and honeybees through plantings of native noninvasive  
27 flowering plants and grasses on the state highways rights-of-way and  
28 at safety rest areas;

29 (iii) Assess the state highways rights-of-way land areas most  
30 suitable for solar development by considering slope, elevation,  
31 vegetative cover, and solar radiation; and

32 (iv) Identify existing highway rights-of-way suitable as  
33 designated energy corridors for electric transmission and  
34 distribution and other energy infrastructure.

35 (b) In carrying out the requirements in (a) of this subsection,  
36 the department may consult with an organization that uses an advanced  
37 rights-of-way solar mapping tool that uses ArcGIS Pro software for  
38 faster and more precise analysis of rights-of-way solar using the  
39 state's full spatial rights-of-way data sets.

1 (c) The department must report its findings, recommendations, and  
2 status of its updates to the transportation committees of the  
3 legislature by January 15, 2025.

13       The appropriations in this section are subject to the following  
14 conditions and limitations:

15       (1) \$6,000,000 of the motor vehicle account—state appropriation  
16 is provided solely for low-cost enhancements. The department shall  
17 give priority to low-cost enhancement projects that improve safety or  
18 provide congestion relief. By December 15th of each odd-numbered  
19 year, the department shall provide a report to the legislature  
20 listing all low-cost enhancement projects completed in the prior  
21 fiscal biennium.

22       (2) (a) During the 2023-2025 fiscal biennium, the department shall  
23 continue a pilot program that expands private transportation  
24 providers' access to high occupancy vehicle lanes. Under the pilot  
25 program, when the department reserves a portion of a highway based on  
26 the number of passengers in a vehicle, the following vehicles must be  
27 authorized to use the reserved portion of the highway if the vehicle  
28 has the capacity to carry eight or more passengers, regardless of the  
29 number of passengers in the vehicle: (i) Auto transportation company  
30 vehicles regulated under chapter 81.68 RCW; (ii) passenger charter  
31 carrier vehicles regulated under chapter 81.70 RCW, except marked or  
32 unmarked stretch limousines and stretch sport utility vehicles as  
33 defined under department of licensing rules; (iii) private nonprofit  
34 transportation provider vehicles regulated under chapter 81.66 RCW;  
35 and (iv) private employer transportation service vehicles. For  
36 purposes of this subsection, "private employer transportation  
37 service" means regularly scheduled, fixed-route transportation  
38 service that is offered by an employer for the benefit of its  
39 employees. Nothing in this subsection is intended to authorize the

1 conversion of public infrastructure to private, for-profit purposes  
2 or to otherwise create an entitlement or other claim by private users  
3 to public infrastructure.

4 (b) The department shall expand the high occupancy vehicle lane  
5 access pilot program to vehicles that deliver or collect blood,  
6 tissue, or blood components for a blood-collecting or distributing  
7 establishment regulated under chapter 70.335 RCW. Under the pilot  
8 program, when the department reserves a portion of a highway based on  
9 the number of passengers in a vehicle, blood-collecting or  
10 distributing establishment vehicles that are clearly and identifiably  
11 marked as such on all sides of the vehicle are considered emergency  
12 vehicles and must be authorized to use the reserved portion of the  
13 highway.

14 (c) The department shall expand the high occupancy vehicle lane  
15 access pilot program to for hire nonemergency medical transportation  
16 vehicles, when in use for medical purposes, as described in section  
17 208((24) of this act)(20), chapter 472, Laws of 2023. Under the  
18 pilot program, when the department reserves a portion of a highway  
19 based on the number of passengers in a vehicle, nonemergency medical  
20 transportation vehicles that meet the requirements identified in  
21 section 208((24) of this act)(20), chapter 472, Laws of 2023 must  
22 be authorized to use the reserved portion of the highway.

23 (d) Nothing in this subsection is intended to exempt these  
24 vehicles from paying tolls when they do not meet the occupancy  
25 requirements established by the department for express toll lanes.

26 (3) The appropriations in this section assume implementation of  
27 additional cost recovery mechanisms to recoup at least \$100,000 in  
28 credit card and other financial transaction costs related to the  
29 collection of fees imposed under RCW 46.17.400, 46.44.090, and  
30 46.44.0941 for driver and vehicle fee transactions beginning January  
31 1, 2023. The department may recover transaction fees incurred through  
32 credit card transactions.

33 (4) The department shall promote safety messages encouraging  
34 drivers to slow down and move over and pay attention when emergency  
35 lights are flashing on the side of the road and other suitable safety  
36 messages on electronic message boards the department operates across  
37 the state. The messages must be promoted through June 30, 2025. The  
38 department may coordinate such messaging with any statewide public  
39 awareness campaigns being developed by the department of licensing or  
40 the Washington state traffic safety commission, or both.

1 (5) \$5,000,000 of the multimodal transportation account—state  
2 appropriation is provided solely for the department to address  
3 emergent issues related to safety for pedestrians and bicyclists.  
4 Funds may only be spent after approval from the office of financial  
5 management. By December 15th of each odd-numbered year, the  
6 department shall provide a report to the legislature listing all  
7 emergent issues addressed in the prior fiscal biennium.

8 ~~((7))~~ (6) \$3,529,000 of the highway safety account—state  
9 appropriation is provided solely for implementation of chapter 17,  
10 Laws of 2023 (speed safety cameras). If chapter 17, Laws of 2023 is  
11 not enacted by June 30, 2023, the amount provided in this subsection  
12 lapses.

13 ~~((8))~~ (7) \$1,279,000 of the move ahead WA account—state  
14 appropriation is provided solely for maintenance and operations of  
15 the virtual coordination center. The department is encouraged to  
16 apply for federal grant funds for the virtual coordination center and  
17 may use state funds as a match. By December 1, 2023, the department  
18 shall report to the transportation committees of the legislature: (a)  
19 Recommendations to expand the center's operations, including specific  
20 additional jurisdictions and corridors across the state; and (b)  
21 amounts received and dates of receipt of any new cash and in-kind  
22 matches from virtual coordination center partners including, but not  
23 limited to, the city of Seattle, King county, other state and local  
24 jurisdictions, and private sector partners.

25 ~~((9))~~ (8) \$100,000 of the motor vehicle account—state  
26 appropriation is provided solely for the department to prepare and  
27 submit a report to the transportation committees of the legislature  
28 by December 1, 2024, with a prioritized list of recommendations for  
29 improving safety and mobility on Interstate 90 between North Bend and  
30 Cle Elum during winter weather events, including estimated costs. The  
31 recommendations must include, but are not limited to, options to  
32 improve compliance with traction tire and chain requirements and  
33 reduce snow-related closures.

34 ~~((11))~~ (9)(a) \$5,000,000 of the motor vehicle account—state  
35 appropriation is provided solely for the department, in coordination  
36 with the independent review team of the joint transportation  
37 committee, to conduct an analysis of highway, road, and freight rail  
38 transportation needs, options, and impacts from shifting the movement  
39 of freight and goods that currently move by barge through the lower

1 Snake river dams to highways, other roads, and rail. The study should  
2 generate volume estimates and evaluate scenarios for changes in  
3 infrastructure and operations that would be necessary to address  
4 those additional volumes. The assessment must include quantitative  
5 analysis based on available data in terms of both financial and  
6 carbon emission costs; and qualitative input gathered from tribal  
7 governments, local governments, freight interests, and other key  
8 stakeholders, including impacts on disadvantaged/underserved  
9 communities. The analysis must include a robust public engagement  
10 process to solicit feedback from interested stakeholders including  
11 but not limited to: Residents and officials in affected cities and  
12 counties; stakeholders involved in railroad, agriculture, fishing,  
13 trucking, shipping and other related industries; appropriate Native  
14 American tribes; representatives of advocacy and community  
15 organizations; and transportation, public works, and economic  
16 development organizations in the affected areas, federal highway  
17 administration and army corps of engineers. The analysis must be  
18 informed by the work of the joint transportation committee's  
19 independent review team, and must include the following:

20 (i) Existing volumes and traffic patterns;

21 (ii) Potential changes in volumes and traffic patterns  
22 immediately following the loss of freight movement by barge and over  
23 the following 20 years, including the carbon emissions impact of this  
24 mode shift;

25 (iii) Identification of whether regional geography, land  
26 availability, and state and federal regulatory processes would allow  
27 for rail and road expansions and increased capacity;

28 (iv) Identification of potential infrastructure and operational  
29 improvements to existing highways, other roads, and rail, including  
30 additional access to facilities, needed to accommodate the higher  
31 freight volumes and impacts and potential opportunities to mitigate  
32 impacts on shipping rates;

33 (v) Identification of rail line development options, including  
34 impacts and potential opportunities to mitigate impacts on grain  
35 storage and handling facilities at regional unit train yards and port  
36 export facilities;

37 (vi) An assessment of costs associated with mitigating potential  
38 slope failure and stabilization necessitated by the drawdown of the  
39 river. An assessment of impacts and potential opportunities to

1 mitigate impacts on adjacent roads, bridges, railroads, and utility  
2 corridors shall be included;

3 (vii) Both financial and carbon cost estimates for development  
4 and implementation of identified needs and options, including  
5 planning, design, and construction;

6 (viii) Analysis of the impacts and potential opportunities to  
7 mitigate impacts of these infrastructure changes on environmental  
8 justice and disadvantaged/underserved communities during  
9 construction, as well as from future operations;

10 (ix) Analysis of safety impacts and potential opportunities to  
11 mitigate impacts for a shift from barge transportation to rail or  
12 truck, including increases in rural community traffic and consistency  
13 with the Washington State Strategic Highway Safety Plan: Target Zero;

14 (x) Impacts and potential opportunities to mitigate impacts on  
15 highly affected commodities, including agriculture, petroleum,  
16 project cargo, and wind energy components;

17 (xi) Analysis of the impacts and potential opportunities to  
18 mitigate impacts that reduced competition resulting from removing  
19 barging of agricultural products on the Snake river would have on  
20 Washington's agricultural industry along with impacts modal shifts  
21 would have on the entire supply chain, including export facilities  
22 and ports on the Lower Columbia River; and

23 (xii) Determination of the feasibility that additional east-west  
24 freight rail capacity can be achieved, particularly through Columbia  
25 River Gorge, and the alternative routes that exist in the event that  
26 adding more infrastructure on these routes is not feasible.

27 (b) The department shall provide status updates on a quarterly  
28 basis in coordination with the joint transportation committee. The  
29 legislature intends to require a final report to the governor and the  
30 transportation committees of the legislature by December 31, 2026.

31 (10) \$4,000,000 of the highway safety account—state appropriation  
32 is provided solely for the department, in consultation with the  
33 Washington traffic safety commission, to evaluate and identify  
34 between 10 to 20 geographical locations in both urban and rural  
35 highway settings to install and implement wrong-way driving  
36 prevention strategies. Such prevention strategies may include  
37 improved signage and pavement markings as recommended by the traffic  
38 safety commission's report on wrong-way driving, "Strategies and  
39 Technologies to Prevent and Respond to Wrong-Way Driving Crashes."  
40 The department must report to the legislature any crash data or

1 wrong-way violations that occur at the selected locations by June 30,  
2 2025.

3 (11) \$1,000,000 of the motor vehicle account—state appropriation  
4 is provided solely for the department to develop an automated highway  
5 speed safety camera pilot program to test two to three automated  
6 traffic safety cameras technologies on state highways in no more than  
7 three testing locations, with at least one location on each side of  
8 the Cascade mountains. The goals of the automated highway speed  
9 safety camera pilot program are to test existing speed camera  
10 technology, determine the impact on speeding behavior in testing  
11 locations, and compile public response to the use of traffic safety  
12 cameras on highways. The department must work with the Washington  
13 state patrol and the traffic safety commission to develop the pilot  
14 program including, but not limited to: Selection of technology;  
15 placement of cameras in high speed, collision, or fatality locations;  
16 establishment of public notification and warning signs before  
17 entering into an area with a speed safety camera; outreach and public  
18 engagement in the program development and site selection process; and  
19 a process to collect and report data including rates of speed before,  
20 during, and after the presence of speed safety cameras and public  
21 response to cameras. The Washington state patrol is responsible for  
22 selecting testing locations and must use accident reports, including  
23 department and traffic safety commission crash data as needed, to  
24 identify high speed and high collision areas. Automated traffic  
25 safety cameras may only take pictures of the vehicle and the vehicle  
26 license plates, and the ticketing of violators is prohibited during  
27 the pilot program. The department may notify drivers of their rates  
28 of speed. The department shall provide a pilot program progress  
29 report to the governor and transportation committees of the  
30 legislature by September 30, 2024, to include public input to safety  
31 cameras, evaluation of technologies, and changes in speeding  
32 behavior.

22 to available funding to implement these strategies, where applicable.  
23 The department may provide appropriate compensation to members of

29 the state. The planning, to be developed in coordination with the  
30 department and local mobility agencies, must identify critical  
31 infrastructure and operational improvements that will support active  
32 transportation and reliability of transit, making it easier for the  
33 public to choose options other than single-occupancy vehicles. A

18 potential future space efficiency measures and consolidations,  
19 including those assessed as having high commercial value and  
20 potential returns to state transportation funds associated with the  
21 sale of the property. Prioritization must be based on, but not

11 evaluate commercial vehicle inspection locations, in coordination  
12 with the Washington state patrol, for potential truck parking  
13 expansion opportunities.

14 (b) These evaluations must include assessments of opportunities  
15 to provide additional truck parking through rest stop and inspection  
16 location reconfiguration, expansion, and conversion, as well as  
17 evaluation of potential improvements to restroom facilities at weigh  
18 stations with truck parking. The department shall consider

21 property for rest stop expansion. Opportunities to convert a rest  
22 stop to a commercial vehicle-only rest stop must be considered if  
23 property is available to develop a new light-duty vehicle rest stop  
24 within a reasonable distance. The department shall include an  
25 evaluation of a potential truck parking site at John Hill Rest Area  
26 along the Interstate 90 corridor identified in the joint  
27 transportation committee's "Truck Parking Action Plan." Evaluations  
28 must include cost estimates for reconfiguration, expansion, and

12 of the facility, and cost comparisons with similar maintenance  
13 facilities.

14 (b) By September 1, 2024, the office of financial management, in  
15 consultation with the department, must develop criteria for  
16 preservation and improvement minor works lists for the department's  
17 facilities program. The criteria must incorporate, adjusted where  
18 appropriate, provisions already in use in the omnibus capital budget  
19 act for minor works, including: (i) The dollar limitation for each  
20 project to be included in the list; (ii) the types of projects

26 list included in the agency budget submittal beginning with the  
27 2025-2027 fiscal biennium.

28 (c) By September 1, 2024, the office of financial management, in  
29 consultation with the department, must also develop criteria for  
30 providing building related capital requests in a comparable format,  
31 adjusted where appropriate, to provisions already in use in the  
32 omnibus capital appropriations act for building projects, including  
33 the C-100 capital request form and other detail requirements for  
34 omnibus capital appropriations act building submissions.

5 The appropriations in this section are subject to the following  
6 conditions and limitations:

7 (1) Except as provided otherwise in this section, the entire  
8 connecting Washington account—state appropriation, the entire move  
9 ahead WA account—federal appropriation, the entire move ahead WA  
10 account—state appropriation, and the entire transportation  
11 partnership account—state appropriation are provided solely for the  
12 projects and activities as listed by fund, project, and amount in  
13 LEAP Transportation Document ((~~2023-1~~)) 2024-1 as developed ((~~April~~  
14 ~~21, 2023~~)) February 20, 2024, Program - Highway Improvements Program  
15 (I). However, limited transfers of specific line-item project  
16 appropriations may occur between projects for those amounts listed  
17 subject to the conditions and limitations in section 601 ((~~of this~~  
18 ~~act~~)), chapter 472, Laws of 2023.

19 (2) Except as provided otherwise in this section, the entire  
20 motor vehicle account—state appropriation and motor vehicle account—  
21 federal appropriation are provided solely for the projects and  
22 activities listed in LEAP Transportation Document ((~~2023-2~~)) 2024-2  
23 ALL PROJECTS as developed ((~~April 21, 2023~~)) February 20, 2024,  
24 Program - Highway Improvements Program (I). Any federal funds gained  
25 through efficiencies, adjustments to the federal funds forecast, or  
26 the federal funds redistribution process must then be applied to  
27 highway and bridge preservation activities.

28 (3) Within the motor vehicle account—state appropriation and  
29 motor vehicle account—federal appropriation, the department may  
30 transfer appropriation authority between programs I and P, except for  
31 appropriation authority that is otherwise restricted in this act, as  
32 follows:

33 (a) Ten days prior to any transfer, the department must submit  
34 its request to the office of financial management and the  
35 transportation committees of the legislature and consider any  
36 concerns raised.

37 (b) The director of the office of financial management must first  
38 provide written authorization for such transfer to the department and  
39 the transportation committees of the legislature.

1 (c) The department shall submit a report on appropriation  
2 authority transferred in the prior fiscal year using this subsection  
3 as part of the department's annual budget submittal.

4 (4) The connecting Washington account—state appropriation  
5 includes up to (~~(\$1,737,009,000)~~) \$1,350,479,000 in proceeds from the  
6 sale of bonds authorized in RCW 47.10.889.

7 (5) The special category C account—state appropriation includes  
8 up to \$118,773,000 in proceeds from the sale of bonds authorized in  
9 RCW 47.10.812.

10 (6) The transportation partnership account—state appropriation  
11 includes up to \$32,643,000 in proceeds from the sale of bonds  
12 authorized in RCW 47.10.873.

13 (7) The appropriations in this section include savings due to  
14 anticipated project underruns; however, it is unknown which projects  
15 will provide savings. The legislature intends to provide sufficient  
16 flexibility for the department to manage to this savings target. To  
17 provide this flexibility, the office of financial management may  
18 authorize, through an allotment modification, reductions in the  
19 amounts that are provided solely for a particular purpose within this  
20 section subject to the following conditions and limitations:

21 (a) The department must confirm that any modification requested  
22 under this subsection of amounts provided solely for a specific  
23 purpose are not expected to be used for that purpose in this fiscal  
24 biennium;

25 (b) Allotment modifications authorized under this subsection may  
26 not result in increased funding for any project beyond the amount  
27 provided for that project in the 2023-2025 fiscal biennium in LEAP  
28 Transportation Document (~~(2023-2)~~) 2024-2 ALL PROJECTS as developed  
29 (~~(April 21, 2023)~~) February 20, 2024;

30 (c) Allotment modifications authorized under this subsection  
31 apply only to amounts appropriated in this section from the following  
32 accounts: Connecting Washington account—state, and move ahead WA  
33 account—state; and

34 (d) The office of financial management must provide notice of  
35 allotment modifications authorized under this subsection within 10  
36 working days to the transportation committees of the legislature. By  
37 December 1, 2023, and December 1, 2024, the department must submit a  
38 report to the transportation committees of the legislature regarding  
39 the actions taken to date under this subsection.

1 (8) The department shall itemize all future requests for the  
2 construction of buildings on a project list and submit them through  
3 the transportation executive information system as part of the  
4 department's annual budget submittal. It is the intent of the  
5 legislature that new facility construction must be transparent and  
6 not appropriated within larger highway construction projects.

7 (9) The legislature continues to prioritize the replacement of  
8 the state's aging infrastructure and recognizes the importance of  
9 reusing and recycling construction aggregate and recycled concrete  
10 materials in our transportation system. To accomplish Washington  
11 state's sustainability goals in transportation and in accordance with  
12 RCW 70A.205.700, the legislature reaffirms its determination that  
13 recycled concrete aggregate and other transportation building  
14 materials are natural resource construction materials that are too  
15 valuable to be wasted and landfilled, and are a commodity as defined  
16 in WAC 173-350-100.

17 (10) By June 30, 2025, to the extent practicable, the department  
18 shall decommission the facilities for the Lacey project engineering  
19 office and the Tumwater project engineering office at the end of  
20 their lease terms and consolidate the Lacey project engineering  
21 office and the Tumwater project engineering office into the  
22 department's Olympic regional headquarters.

23 (11) The legislature intends that any savings realized on the  
24 following projects will not be attributable to the application of  
25 practical design, retired risk, or unused contingency funding for the  
26 purposes of RCW 47.01.480:

- 27 (a) I-5/Marvin Road/SR 510 Interchange (L1100110); and  
28 (b) I-82/EB WB On and Off Ramps (L2000123).

29 (12) (a) (~~(\$300,000,000)~~) \$337,114,000 of the coronavirus state  
30 fiscal recovery fund—federal appropriation, (~~(\$312,653,000)~~)  
31 \$110,439,000 of the motor vehicle account—federal appropriation,  
32 (~~(\$427,459,000)~~) \$576,827,000 of the move ahead WA account—state  
33 appropriation, and (~~(\$1,293,000)~~) \$8,329,000 of the motor vehicle  
34 account—state appropriation are provided solely for the Fish Passage  
35 Barrier Removal project (0BI4001) with the intent of fully complying  
36 with the federal *U.S. v. Washington* court injunction by 2030.

37 (b) The fish passage barrier removal program, in consultation  
38 with the office of innovative partnerships, shall explore  
39 opportunities to employ innovative delivery methods to ensure

1 compliance with the court injunction including, but not limited to,  
2 public-private partnerships and batched contracts. It is the intent  
3 of the legislature that appropriations for this purpose may be used  
4 to jointly leverage state and local funds for match requirements in  
5 applying for competitive federal aid grants provided in the  
6 infrastructure investment and jobs act for removals of fish passage  
7 barriers under the national culvert removal, replacement, and  
8 restoration program. State funds used for the purpose described in  
9 this subsection must not compromise full compliance with the court  
10 injunction by 2030.

11 (c) The department shall coordinate with the Brian Abbott fish  
12 passage barrier removal board to use a watershed approach by  
13 replacing both state and local culverts guided by the principle of  
14 providing the greatest fish habitat gain at the earliest time. The  
15 department shall deliver high habitat value fish passage barrier  
16 corrections that it has identified, guided by the following factors:  
17 Opportunity to bundle projects, tribal priorities, ability to  
18 leverage investments by others, presence of other barriers, project  
19 readiness, culvert conditions, other transportation projects in the  
20 area, and transportation impacts. The department and Brian Abbott  
21 fish barrier removal board must provide updates on the implementation  
22 of the statewide culvert remediation plan to the legislature by  
23 November 1, 2023, and June 1, 2024.

24 (d) The department must keep track of, for each barrier removed:  
25 (i) The location; (ii) the amount of fish habitat gain; and (iii) the  
26 amount spent to comply with the injunction.

27 (e) During the 2023-2025 fiscal biennium, the department shall  
28 provide reports of the amounts of federal funding received for this  
29 project to the governor and transportation committees of the  
30 legislature by November 1, 2023, and semiannually thereafter.

31 (13) (a) (~~(\$6,000,000 of the move ahead WA account state~~  
32 ~~appropriation)) \$15,000,000 of the model toxics control stormwater  
33 account—state appropriation is provided solely for the Stormwater  
34 Retrofits and Improvements project (L4000040). It is the intent of  
35 the legislature, over the 16-year move ahead WA investment program,  
36 to provide \$500,000,000 for this program.~~

37 (b) (~~The appropriation in this subsection)) Of the amounts  
38 provided in this subsection, \$6,000,000 is provided solely for the  
39 Urban Stormwater Partnership - I-5 Ship-Canal Bridge Pilot (Seattle)  
40 project.~~

1 (c) The funding provided for stormwater retrofits and  
2 improvements must enhance stormwater runoff treatment from existing  
3 roads and infrastructure with an emphasis on green infrastructure  
4 retrofits. Projects must be prioritized based on benefits to salmon  
5 recovery and ecosystem health, reducing toxic pollution, addressing  
6 health disparities, and cost-effectiveness. The department of  
7 transportation must submit progress reports on its efforts to reduce  
8 the toxicity of stormwater runoff from existing infrastructure,  
9 recommendations for addressing barriers to innovative solutions, and  
10 anticipated demand for funding each fiscal biennium.

11 (14) (a) (~~(\$35,465,000)~~) \$25,067,000 of the connecting Washington  
12 account—state appropriation is provided solely for the SR 3 Freight  
13 Corridor (T30400R) project. The legislature intends to provide a  
14 total of \$78,910,000 for this project, including an increase of  
15 \$12,000,000 in future biennia to safeguard against inflation and  
16 supply/labor interruptions and ensure that:

17 (i) The northern terminus remains at Lake Flora Road and the  
18 southern terminus at the intersection of SR 3/SR 302;

19 (ii) Multimodal safety improvements at the southern terminus  
20 remain in the project to provide connections to North Mason school  
21 district and provide safe routes to schools; and

22 (iii) Intersections on the freight corridor are constructed at  
23 Romance Hill and Log Yard road.

24 (b) With respect to right-of-way acquisition and the construction  
25 of the SR 3 Freight Corridor project (T30400R), tribal consultation  
26 with the Suquamish tribe shall begin at the earliest stage of  
27 planning, including without limitation on all funding decisions and  
28 funding programs, to provide a government-to-government mechanism for  
29 the tribe to evaluate, identify, and expressly notify governmental  
30 entities of any potential impacts to tribal cultural resources,  
31 archaeological sites, sacred sites, fisheries, or other rights and  
32 interests in tribal lands and lands within which the tribe possesses  
33 rights reserved or protected by federal treaty, statute, or executive  
34 order. The consultation is independent of, and in addition to, any  
35 public participation process required under state law, or by a state  
36 agency, including the requirements of Executive Order 21-02 related  
37 to archaeological and cultural resources, and regardless of whether  
38 the agency receives a request for consultation from the Suquamish  
39 tribe. Regularly scheduled tribal consultation meetings with the

1 Suquamish tribe shall continue throughout the duration of any funding  
2 or program decisions and proposed project approval.

3 (15) \$6,000,000 of the move ahead WA account—state appropriation  
4 and \$10,000,000 of the move ahead WA account—federal appropriation  
5 are provided solely for the SR 3/Gorst Area - Widening project  
6 (L4000017). Tribal consultation with the Suquamish tribe must begin  
7 at the earliest stage of planning, including, without limitation, all  
8 funding decisions and funding programs, to provide a government-to-  
9 government mechanism for the tribe to evaluate, identify, and  
10 expressly notify governmental entities of any potential impacts to  
11 tribal cultural resources, archaeological sites, sacred sites,  
12 fisheries, or other rights and interests in tribal lands and lands  
13 within which the tribe possesses rights reserved or protected by  
14 federal treaty, statute, or executive order. The consultation is  
15 independent of, and in addition to, any public participation process  
16 required under state law, or by a state agency, including the  
17 requirements of Executive Order 21-02 related to archaeological and  
18 cultural resources, and regardless of whether the agency receives a  
19 request for consultation from the Suquamish tribe. Regularly  
20 scheduled tribal consultation meetings with the Suquamish tribe must  
21 continue throughout the duration of any funding program and proposed  
22 project approval.

23 (16) (a) (~~(\$84,500,000)~~) \$94,500,000 of the move ahead WA account—  
24 federal appropriation, \$137,500,000 of the move ahead WA account—  
25 private/local appropriation, and (~~(\$53,000,000)~~) \$43,000,000 of the  
26 move ahead WA account—state appropriation are provided solely for the  
27 I-5 Columbia river bridge project (L4000054). The legislature finds  
28 that the replacement of the I-5 Columbia river bridge is a project of  
29 national significance and is critical for the movement of freight.  
30 One span is now 105 years old, at risk for collapse in the event of a  
31 major earthquake, and no longer satisfies the needs of commerce and  
32 travel. Replacing the aging interstate bridge with a modern,  
33 seismically resilient, multimodal structure that provides improved  
34 mobility for people, goods, and services is a high priority.  
35 Therefore, the legislature intends to support the replacement of the  
36 I-5 Columbia river bridge with an investment of \$1,000,000,000 over  
37 the 16-year move ahead WA investment program.

38 (b) The legislature recognizes the importance of the I-5/Mill  
39 Plain Boulevard project (L2000099) and intends to provide funding for

1 reconstruction of the existing interchange in coordination with  
2 construction of the Interstate 5 bridge over the Columbia river.

3 (c) The department shall provide regular updates on the status of  
4 ongoing coordination with the state of Oregon on any bistate  
5 agreements regarding sharing of revenues, use of revenues, and fiscal  
6 responsibilities of each state. Prior to finalizing any such  
7 agreement, the department shall provide a draft of the agreement to  
8 the transportation committees of the legislature for review and  
9 input. Additionally, the department shall advise on the status of any  
10 bistate agreements to the joint transportation committee beginning in  
11 September 2023 and quarterly thereafter until any agreements are  
12 finalized.

13 (17) The legislature recognizes the importance of the US-12/Walla  
14 Walla Corridor Improvements project (T20900R) and intends to advance  
15 funding to provide matching funds if competitive federal funding is  
16 awarded for the final remaining four-lane section between Wallula and  
17 Nine Mile Hill. The department, in consultation with local  
18 governments in the vicinity, must pursue any federal funding  
19 available.

21 is provided solely for the US 101/Simdars Bypass project (L4000013).

22 (19) (~~(\$570,842,000)~~) \$338,512,000 of the connecting Washington  
23 account—state appropriation, (~~(\$155,000)~~) \$3,109,000 of the  
24 multimodal transportation account—state appropriation,  
25 (~~(\$26,537,000)~~) \$27,201,000 of the motor vehicle account—private/  
26 local appropriation, (~~(\$200,800,000)~~) \$178,543,000 of the move ahead  
27 WA account—federal appropriation, (~~(\$68,191,000)~~) \$36,370,000 of the  
28 move ahead WA account—state appropriation, and (~~(\$6,980,000)~~)  
29 \$211,131,000 of the motor vehicle account—federal appropriation are  
30 provided solely for the SR 167/SR 509 Puget Sound Gateway project  
31 (M00600R).

32 (a) Any savings on the project must stay on the Puget Sound  
33 Gateway corridor until the project is complete.

34 (b) In making budget allocations to the Puget Sound Gateway  
35 project, the department shall implement the project's construction as  
36 a single corridor investment. The department shall continue to  
37 collaborate with the affected stakeholders as it implements the  
38 corridor construction and implementation plan for state route number  
39 167 and state route number 509. Specific funding allocations must be

1 based on where and when specific project segments are ready for  
2 construction to move forward and investments can be best optimized  
3 for timely project completion. Emphasis must be placed on avoiding  
4 gaps in fund expenditures for either project.

5 (c) The entire multimodal transportation account—state  
6 appropriation in this subsection is for:

7 (i) The design phase of the Puyallup to Tacoma multiuse trail

9 project to connect a network of new and existing trails from Mount  
10 Rainier to Point Defiance Park; and

11 (ii) Segment 2 of the state route number 167 completion project  
12 shared-use path to provide connections to the interchange of state  
13 route number 167 at 54th to the intersection of state route number

15 (20) \$2,213,000 of the connecting Washington account—state  
16 appropriation is provided solely for the SR 224/Red Mountain Vicinity  
17 Improvement project (L1000291). The department shall provide funding  
18 to the city of West Richland to complete the project within the  
19 project scope identified by the legislature and within the total  
20 amount provided by the legislature. The department shall not amend  
21 the project's scope of work to add pavement preservation on state  
22 route number 224 from the West Richland city limits to Antinori Road.

23 (21) (a) (~~(\$394,963,000)~~) \$409,667,000 of the connecting  
24 Washington account—state appropriation, (~~(\$400,000)~~) \$500,000 of the  
25 state route number 520 corridor account—state appropriation, and  
26 (~~(\$4,496,000)~~) \$5,592,000 of the motor vehicle account—private/local

30 (~~((current anticipated contract completion of 2023))~~), the department  
31 shall sell or transfer that portion of the property not (~~((used))~~)  
32 necessary for (~~((permanent))~~) transportation (~~((improvements))~~) purposes,  
33 and shall initiate a process to convey (~~((that))~~) or transfer such  
34 portion of the surplus property to a subsequent owner.

35 (c) Of the amounts provided in this subsection, \$400,000 of the  
36 state route number 520 corridor account—state appropriation is  
37 provided solely for noise mitigation activities. It is the intent of  
38 the legislature to provide an additional \$600,000 for noise  
39 mitigation activities.

1 (d) Pursuant to section 2, chapter . . . (Senate Bill No. 6316),  
2 Laws of 2024, the department shall apply for a sales tax deferral for  
3 construction work on the SR 520 Seattle Corridor Improvements - West  
4 End project (M00400R).

5 (22) (a) \$750,000 of the transportation partnership account—state  
6 appropriation is provided solely for the state route number 520  
7 bridge replacement and HOV (8BI1003) to implement signage for the  
8 state route number 520 interchange with Montlake Boulevard as a  
9 result of public engagement.

10 (b) The amounts appropriated in this subsection must be used for

29 project (L2021118). The department must: (a) Work in collaboration  
30 with King county and the Skyway coalition to align community assets,  
31 transportation infrastructure needs, and initial design for safety  
32 improvements along state route number 900; and (b) work with the  
33 Skyway coalition to lead community planning engagement and active  
34 transportation activities.

35 ~~((+22))~~ (24) \$25,000,000 of the motor vehicle account—federal  
36 appropriation is provided solely for a federal fund exchange pilot  
37 program. The pilot program must allow exchanges of federal surface  
38 transportation block grant population funding and state funds at an  
39 exchange rate of 95 cents in state funds per \$1.00 in federal funds.

1 The projects receiving the exchanged federal funds must adhere to all  
2 federal requirements, including the applicable disadvantaged business  
3 enterprise goals. The entirety of the appropriation in this  
4 subsection must be held in unallotted status until surface  
5 transportation block grant population funding has been offered to the  
6 state, and the department determines that a federalized project or  
7 projects funded in this section is eligible to spend the surface  
8 transportation block grant population funding. (~~(\$22,500,000)~~)  
9 \$23,750,000 from existing state appropriations identified elsewhere  
10 within this section are available to be used as part of the exchange.  
11 Upon determination that a project or projects funded in this section  
12 is eligible to spend the offered surface transportation block grant  
13 population funding, state funds appropriated in this section for the  
14 eligible state project or projects in an amount equal to 100 percent  
15 of the offered surface transportation block grant population funding  
16 must be placed in unallotted status. The legislature intends to  
17 evaluate the utility and efficacy of the pilot program in the 2025  
18 legislative session while reappropriating any remaining funds into  
19 the 2025-2027 fiscal biennium. Therefore, the department may issue  
20 additional calls for projects with any remaining funds provided in  
21 this subsection.

22 (~~(23) \$5,000,000~~) (25) \$9,593,000 of the motor vehicle account—  
23 state appropriation, (~~(\$5,000,000)~~) \$552,000 of the connecting

26 for the SR 522/Paradise Lk Rd Interchange & Widening on SR 522  
27 (Design/Engineering) project (NPARADI), specifically for design of,  
28 preliminary engineering, and right-of-way acquisition for the  
29 interchange and widening as a single project. The department must  
30 consider reserving portions of state route number 522, including  
31 designated lanes or ramps, for the exclusive or preferential use of  
32 public transportation vehicles, privately owned buses, motorcycles,  
33 private motor vehicles carrying not less than a specified number of  
34 passengers, or private transportation provider vehicles pursuant to  
35 RCW 47.52.025.

36 (26) Prior to initiating new requests for qualifications for  
37 projects N00900R, N52600R, M00800R, L1000199, 0BP2001, and M00600R,  
38 the department shall convene an expert review panel to review the  
39 planned procurement methods for these projects. The panel must

1 consist of up to five representatives of the contracting community  
2 with expertise in multiple procurement methods. The panel shall  
3 provide recommendations on procurement methods to the office of  
4 financial management, the department, and the transportation  
5 committees of the legislature for each project stated in this  
6 subsection. After the panel's recommendations have been provided, the  
7 department may initiate new requests for qualifications incorporating

1 **IMPLEMENTING PROVISIONS**

2 **Sec. 501.** 2023 c 472 s 601 (uncodified) is amended to read as  
3 follows:

4 **MANAGEMENT OF TRANSPORTATION FUNDS WHEN THE LEGISLATURE IS NOT IN**  
5 **SESSION**

6 (1) The 2005 transportation partnership projects or improvements  
7 and 2015 connecting Washington projects or improvements are listed in  
8 the LEAP Transportation Document (~~(2023-1)~~) 2024-1 as developed  
9 (~~(April 21, 2023)~~) February 20, 2024, which consists of a list of  
10 specific projects by fund source and amount over multiple biennia.  
11 Current fiscal biennium funding for each project is a line-item  
12 appropriation, while the outer year funding allocations represent a  
13 16-year plan. The department of transportation is expected to use the  
14 flexibility provided in this section to assist in the delivery and  
15 completion of all transportation partnership account and connecting  
16 Washington account projects on the LEAP transportation document  
17 referenced in this subsection. For the 2023-2025 project  
18 appropriations, unless otherwise provided in this act, the director  
19 of the office of financial management may provide written  
20 authorization for a transfer of appropriation authority between  
21 projects funded with transportation partnership account  
22 appropriations or connecting Washington account appropriations to  
23 manage project spending and efficiently deliver all projects in the  
24 respective program under the following conditions and limitations:

25 (a) Transfers may only be made within each specific fund source  
26 referenced on the respective project list;

27 (b) Transfers from a project may not be made as a result of the  
28 reduction of the scope of a project or be made to support increases  
29 in the scope of a project;

30 (c) Transfers from a project may be made if the funds  
31 appropriated to the project are in excess of the amount needed in the  
32 current fiscal biennium;

33 (d) Transfers may not occur for projects not identified on the  
34 applicable project list;

35 (e) Transfers to a project may not occur if that project is a  
36 programmatic funding item described in broad general terms on the  
37 applicable project list without referencing a specific state route  
38 number;

1 (f) Transfers may not be made while the legislature is in  
2 session;

3 (g) Transfers to a project may not be made with funds designated  
4 as attributable to practical design savings as described in RCW  
5 47.01.480;

6 (h) Except for transfers made under (l) of this subsection,  
7 transfers may only be made in fiscal year 2024;

8 (i) The total amount of transfers under this section may not  
9 exceed \$50,000,000;

10 (j) Except as otherwise provided in (l) of this subsection,  
11 transfers made to a single project may not cumulatively total more  
12 than \$20,000,000 per fiscal biennium;

13 (k) Each transfer between projects may only occur if the director  
14 of the office of financial management finds that any resulting change  
15 will not hinder the completion of the projects as approved by the  
16 legislature; and

17 (l) Transfers between projects may be made by the department of  
18 transportation without the formal written approval provided under  
19 this subsection (1), provided that the transfer amount to a single  
20 project does not exceed \$250,000 or 10 percent of the total project  
21 per fiscal biennium, whichever is less. These transfers must be  
22 reported quarterly to the director of the office of financial  
23 management and the chairs of the house of representatives and senate  
24 transportation committees.

25 (2) The department of transportation must submit quarterly all  
26 transfers authorized under this section in the transportation  
27 executive information system. The office of financial management must  
28 maintain a legislative baseline project list identified in the LEAP  
29 transportation documents referenced in this act, and update that  
30 project list with all authorized transfers under this section,  
31 including any effects to the total project budgets and schedules  
32 beyond the current fiscal biennium.

33 (3) At the time the department submits a request to transfer  
34 funds under this section, a copy of the request must be submitted to  
35 the chairs and ranking members of the transportation committees of  
36 the legislature.

37 (4) Before approval, the office of financial management shall  
38 work with legislative staff of the house of representatives and  
39 senate transportation committees to review the requested transfers in

1 a timely manner and address any concerns raised by the chairs and  
2 ranking members of the transportation committees.

3 (5) No fewer than 10 days after the receipt of a project transfer  
4 request, the director of the office of financial management must  
5 provide written notification to the department of any decision  
6 regarding project transfers, with copies submitted to the  
7 transportation committees of the legislature.

8 (6) The department must submit annually as part of its budget  
9 submittal a report detailing all transfers made pursuant to this  
10 section, including any effects to the total project budgets and  
11 schedules beyond the current fiscal biennium.

12 **Sec. 502.** 2023 c 472 s 606 (uncodified) is amended to read as  
13 follows:

14 **TRANSIT, BICYCLE, AND PEDESTRIAN ELEMENTS REPORTING**

16 must report on amounts expended to benefit transit, bicycle, or  
17 pedestrian elements within all connecting Washington projects in  
18 programs I, P, and Z identified in LEAP Transportation Document  
19 ((2023-2)) 2024-2 ALL PROJECTS as developed ((April 21, 2023))  
20 February 20, 2024, in a manner consistent with past practices as  
21 specified in section 602, chapter 186, Laws of 2022.

22 **Sec. 503.** 2023 c 472 s 609 (uncodified) is amended to read as  
23 follows:

24 **LOCAL PARTNER COOPERATIVE AGREEMENTS**

25 (1) If a transportation project, where the Washington state  
26 department of transportation is the lead and the project is scheduled  
27 to be delivered or completed in the 2023-2025 fiscal biennium as  
28 shown on the LEAP Transportation Document ((2023-2)) 2024-2 ALL  
29 PROJECTS as developed ((April 21, 2023)) February 20, 2024, is in  
30 jeopardy of being delayed because the department is unable to deliver  
31 or complete the project within the 2023-2025 fiscal biennium and  
32 other local jurisdictions are able to deliver or complete the work,  
33 the department must coordinate with the appropriate local  
34 jurisdictions to determine if a potential local partner is ready,  
35 willing, and able to execute delivery and completion of the project  
36 within the 2023-2025 fiscal biennium.

37 (2) The department must compile a list of projects under this  
38 section, including the timing under which the local partner agency

1 can deliver or complete the projects within the 2023-2025 and  
2 2025-2027 fiscal biennia. The department must submit the compiled  
3 list of projects to the governor and the transportation committees of

1 (1) (a) The department must keep a running total of all credits  
2 allowed under RCW 82.70.020 during each fiscal year. The department  
3 may not allow any credits that would cause the total amount allowed  
4 to exceed \$2,750,000 in any fiscal year.

5 (b) If the total amount of credit applied for by all applicants  
6 in any year exceeds the limit in this subsection, the department must  
7 ratably reduce the amount of credit allowed for all applicants so  
8 that the limit in this subsection is not exceeded. If a credit is  
9 reduced under this subsection, the amount of the reduction may not be  
10 carried forward and claimed in subsequent fiscal years.

11 (2) (a) Tax credits under RCW 82.70.020 may not be claimed in  
12 excess of the amount of tax otherwise due under chapter 82.04 or  
13 82.16 RCW.

14 (b) Through June 30, 2005, a person with taxes equal to or in  
15 excess of the credit under RCW 82.70.020, and therefore not subject  
16 to the limitation in (a) of this subsection, may elect to defer tax  
17 credits for a period of not more than three years after the year in  
18 which the credits accrue. For credits approved by the department  
19 through June 30, 2015, the approved credit may be carried forward and  
20 used for tax reporting periods through December 31, 2016. Credits  
21 approved after June 30, 2015, must be used for tax reporting periods  
22 within the calendar year for which they are approved by the  
23 department and may not be carried forward to subsequent tax reporting  
24 periods. Credits carried forward as authorized by this subsection are  
25 subject to the limitation in subsection (1) (a) of this section for  
26 the fiscal year for which the credits were originally approved.

27 (3) No person may be approved for tax credits under RCW 82.70.020  
28 in excess of \$100,000 in any fiscal year. This limitation does not  
29 apply to credits carried forward from prior years under subsection  
30 (2) (b) of this section.

31 (4) No person may claim tax credits after June 30, ((2024)) 2025.

32 **Sec. 606.** RCW 82.70.900 and 2023 c 374 s 18 are each amended to  
33 read as follows:

38 intended to be used for subsequent evaluation of the tax preference.

1 It is not intended to create a private right of action by any party  
2 or be used to determine eligibility for the preferential tax  
3 treatment.

4 (2) The tax preference performance statement in section 413,  
5 chapter 44, Laws of 2015 3rd sp. sess. applies to the expansion of  
6 the tax preference in section 604 of this act.

7 **Sec. 608.** 2022 c 182 s 503 (uncodified) is amended to read as

22 this section)) 2023-2025 fiscal biennium, the legislature may direct  
23 the state treasurer to make transfers of moneys from the RV account

11 NEW SECTION. Sec. 611. A new section is added to 2023 c 472  
12 (uncodified) to read as follows:

13 (1) The transportation carbon emissions reduction account is  
14 created in the state treasury. Moneys in the account may be spent  
15 only after appropriation. Expenditures from the account are intended  
16 to affect reductions in transportation sector carbon emissions  
17 through a variety of carbon reducing investments. Such investments  
18 may include, but are not limited to: Transportation alternatives to  
19 single occupancy passenger vehicles; reductions in single occupancy  
20 passenger vehicle miles traveled; reductions in per mile emissions in  
21 vehicles, including through the funding of alternative fuel  
22 infrastructure and incentive programs; and emissions reduction  
23 programs for freight transportation, including motor vehicles and  
24 rail, as well as for ferries and other maritime and port activities.  
25 Expenditures from the account may be made only for transportation  
26 carbon emissions reducing purposes and may not be made for highway  
27 purposes authorized under the 18th Amendment of the Washington state  
28 Constitution, other than as specified in this section, and must be  
29 made in accordance with subsection (2) of this section. It is the  
30 legislature's intent that expenditures from the account used to  
31 reduce carbon emissions be made with the goal of achieving equity for  
32 communities that historically have been omitted or adversely impacted  
33 by past transportation policies and practices.

34 (2) Appropriations in an omnibus transportation appropriations  
35 act from the transportation carbon emissions reduction account must  
36 be made exclusively to fund the following activities:

39 (iii) Alternative fuel and electrification;

4 transportation appropriations act, chapter 472, Laws of 2023, and  
5 chapter . . . , Laws of 2024 (this act), which are appropriated from  
6 the carbon emissions reduction account before January 1, 2025, must  
7 thereafter be paid from the transportation carbon emissions reduction  
8 account as if they were appropriated from that account.

9 (4) Any appropriations from the carbon emissions reduction  
10 account beginning January 1, 2025, must lapse.

11 (5) Any residual balance of funds remaining in the carbon  
12 emissions reduction account on or after December 5, 2024, must be  
13 transferred by the state treasurer to the transportation carbon  
14 emissions reduction account created in this section.

15 (6) This section expires July 1, 2025.

16 NEW SECTION. **Sec. 612.** Section 611 of this act takes effect  
17 only if the carbon emissions reduction account is abolished on or  
18 after December 5, 2024.

(End of part)

1 **MISCELLANEOUS**

2 NEW SECTION. **Sec. 701.** If any provision of this act or its  
3 application to any person or circumstance is held invalid, the  
4 remainder of the act or the application of the provision to other  
5 persons or circumstances is not affected.

6 NEW SECTION. **Sec. 702.** Except for section 611 of this act, this
